Editor's Note

Since 1995, the China Council for the Promotion of International Trade (CCPIT) has compiled and printed the Chinese-English bilingual annual report of Fairs and Exhibitions in China (hereinafter referred to as "the book") every year, and published information about major economic and trade exhibitions to be held in China that year. The book has been welcomed by embassies and consulates in China, trade associations as well as enterprises as it provides important reference for them to participate in and visit these fairs and exhibitions.

Fairs and Exhibitions in China (2024) (hereinafter referred to as "the book 2024") is coordinated by CCPIT Department of Exhibition Management (Office of International Exhibitions Bureau and World Expo Affairs). CCPIT Information Center (China Trade Promotion Information Technology Co., Ltd.) is responsible for its compilation.

To better understand and use the book, please follow the details below:

I. Scope of Data

The terms of fairs, exhibitions and expos in the book 2024 are limited to economic and trade ones, excluding public performances and events related to culture, recruitment, local small fairs and others.

The book 2024 has collected information on about 1400 selected economic and trade fairs and exhibitions to be held in 2024 in over 80 Chinese cities of 32 provinces/autonomous regions/municipalities as well as Hong Kong and Macao Special Administrative Regions (the deadline for information collection is December 15th, 2023). Project data include name, time, venue, host & organizer, display content and contact information of these fairs and exhibitions. Readers can search for information by the host city or the industry.

II. Source of Data

The data in this book mainly come from CCPIT local sub-councils and industrial sub-councils, exhibition hosts and organizers, exhibition centers and online/printed official media.

III. Limitations and Accuracy

Due to various reasons, the uncertainty remains whether the fairs and exhibitions in the book 2024 will proceed as scheduled, and the information of some projects have not yet been clarified when the book is to be published. Although the Editorial Board has cross-checked the data through various means, there may still be changes and modifications in terms of the date, venue, even the alteration, cancellation or addition of the projects.

Therefore, users are suggested to contact the hosts and organizers to verify the details before participating in or visit the fairs and exhibitions.

IV. Download and Search

The book is available in both printed and electronic versions, and is also open to online searching. Readers can visit the official website of CCPIT (www.ccpit.org) and download it in the "Research Reports" section, or visit the website of exhibition. ccpit.org.

For further inquiries, please contact the CCPIT Department of Exhibition Management or the CCPIT Information Center (China Trade Promotion Information Technology Co., Ltd.) at +86-10-88075059 / 82217107.
