**Foreign
Investment**

01

(I) Investment Promotion

Support Type	No.	Key Policy Points	Basis
Investment promotion	1	<p><i>Regulations for the Implementation of the Foreign Investment Law of the People's Republic of China</i> (National Decree No. 723):</p> <p>Article 2 The State encourages and promotes foreign investment, protects the legitimate rights and interests of foreign investment, standardizes the management of foreign investment, continuously optimizes the environment for foreign investment, and promotes a higher level of opening to the outside world.</p> <p>Article 6 The government and its relevant departments shall treat foreign-funded enterprises and domestic funded enterprises equally according to law in terms of government fund arrangement, land supply, tax reduction and exemption, qualification licensing, standard formulation, project application, human resources policies, etc.</p> <p>Article 12 Foreign investors and enterprises with foreign investment may, in accordance with laws, administrative regulations or the provisions of the State Council, enjoy preferential treatment in finance, taxation, finance and land use.</p> <p>Foreign investors who expand their investment in China with their investment income in China shall enjoy corresponding preferential treatment according to law.</p>	<p><i>Regulations for the Implementation of the Foreign Investment Law of the People's Republic of China</i> (National Decree No. 723)</p>
	2	<p>Foreign investors or foreign-invested enterprises investing in areas outside the negative list shall register in accordance with the principle of consistency between domestic and foreign investment. If the industry regulatory department has legally approved the relevant enterprise's business license matters before registration, the registration authority does not need to conduct repeated reviews on whether it meets the conditions specified in the negative list, and should deeply clean up restrictive measures beyond the negative list.</p>	<p><i>Notice of the Municipal Development and Reform Commission and Other Departments on the Issuance of the Specific Measures for Tianjin to Promote Investment through the Increment Expansion, Stable Stock, and Quality Improvement with a Focus on the Manufacturing Industry</i> (JFGWZ [2023] No. 7)</p>
	3	<p>Encourage foreign-invested enterprises to reinvest profits, promote the transformation and upgrading of utilizing foreign capital, and effectively implement policies such as the temporary exemption of income tax for foreign investors to directly invest in distributed profits. Encourage existing foreign-invested enterprises to further increase capital and expand production through profit reinvestment, carry out refined publicity and guidance, implement convenient tax services, and ensure that eligible enterprises can enjoy all benefits.</p>	

(II) Market Access

Support Type	No.	Key Policy Points	Basis
Catalogue of industries encouraging foreign investment	1	<p><i>Catalogue of Industries Encouraging Foreign Investment (2022 Edition)</i></p> 	<p><i>Catalogue of Industries Encouraging Foreign Investment (2022 Edition)</i> (Decree No. 52 of 2022 of the National Development and Reform Commission and the Ministry of Commerce)</p>
Negative list	2	<p><i>Special Administrative Measures for Foreign Investment Access (Negative List)(2021 Edition)</i></p> 	<p><i>Special Administrative Measures for Foreign Investment Access (Negative List) (2021 Edition)</i> (Decree No. 47 of 2021 of the National Development and Reform Commission and the Ministry of Commerce)</p>
	3	<p><i>Special Administrative Measures for Foreign Investment Access in Pilot Free Trade Zone (Negative List) (2021 Edition)</i></p> 	<p><i>Special Administrative Measures for Foreign Investment Access in Pilot Free Trade Zone (Negative List) (2021 Edition)</i> (Decree No. 48 of 2021 of the National Development and Reform Commission and the Ministry of Commerce)</p>

Support Type	No.	Key Policy Points	Basis
Encouragement of foreign investment	4	<p>Starting from January 1, 2023, foreign investment projects within the scope of the <i>Catalogue (2022 Edition)</i> (including capital increase projects, the same below), self-use equipment imported within the total investment amount, as well as technology, accessories, and spare parts imported with the aforementioned equipment in accordance with the contract, shall be exempt from customs duties and subject to import value-added tax in accordance with [GF No. 37] Document and Announcement No. 103 of the General Administration of Customs in 2008 and other relevant regulations, except for the goods listed in the <i>Catalogue of Imported Goods Not Exempted from Tax for Foreign Investment Projects</i> and the <i>Catalogue of Major Technical Equipment and Products Not Exempted from Tax for Import</i>.</p>	<p><i>Announcement on the Implementation of the Catalogue of Industries Encouraging Foreign Investment (2022 Edition)</i> (Announcement No. 122 of 2022 of the General Administration of Customs)</p>
Enlargement of the opening up of service industry in Tianjin	5	<p>Support foreign financial institutions such as foreign banks to establish new institutions or increase capital and shares in accordance with laws and regulations. Support cooperation with overseas institutions to develop cross-border commercial medical insurance products, and carry out international commercial medical insurance settlement according to regulations. Support the implementation of Qualified Foreign Limited Partner (QFLP).</p>	<p><i>Notice of the Ministry of Commerce on Printing and Distributing the Overall Plan of Tianjin's Comprehensive Pilot Program for Expanding the Opening up of the Service Industry</i> (SZF No. 62 in 2021)</p>
	6	<p>Actively introduce and cultivate international advanced medical institutions, and support Hong Kong and Macao service providers to establish solely funded medical institutions.</p>	
	7	<p>Support the cooperative education between application-oriented undergraduate universities, higher vocational colleges and foreign high-level applied technology universities. Promote the standardized development of Sino-foreign cooperative education for ordinary high schools.</p>	

Support Type	No.	Key Policy Points	Basis
Enlargement of opening up of the service industry in Tianjin	8	Moderately relax the management of small dosage special chemical agents, biological materials and samples for medical research and development. Relax the access of private non-enterprise units that are funded by foreign investors to establish non-profit elderly care institutions.	<i>Notice of the Ministry of Commerce on Printing and Distributing the Overall Plan of Tianjin's Comprehensive Pilot Program for Expanding the Opening up of the Service Industry (SZF No. 62 in 2021)</i>
	9	On the premise of compliance with laws and regulations, in principle, support eligible sponsors to establish shipping insurance institutions.	
	10	Support the pilot's development of international factoring business. Support qualified financial institutions such as financial companies to obtain the qualification of foreign exchange settlement and sales business and derivatives trading business, support qualified securities companies, fund management companies and other financial institutions to obtain the qualification of foreign exchange settlement and sales business and carry out foreign exchange spot and derivatives trading in accordance with laws and regulations under the premise of controllable risk.	

(III) Investment Guidelines

Support Type	Key Policy Points	Basis
Investment guidelines	Tianjin Foreign Investment Guidelines (2022 Chinese Version) 	Prepared and issued by Tianjin Municipal Bureau of Commerce
	Tianjin Foreign Investment Guidelines (2022 English Version) 	

(IV) Work and Life

Support Type	Key Policy Points	Basis
<p>Foreigners' work and life in Tianjin</p>	<p>Know-all E-book about foreigners' life in Tianjin: It interprets Tianjin's relevant policies on employment, schooling, business, medical treatment, housing, transportation, tourism, life, exit and entry, emergency, etc., responds to the concerns of foreigners in Tianjin, solves hot issues, and provides the latest service guidance.</p> 	<p>Prepared and issued by the Foreign Affairs Office of Tianjin Municipal People's Government</p>
<p>Guidelines for handling work permits for foreigners in Tianjin</p>	<p>Guidelines for handling work permits for foreigners in Tianjin: It will further deepen the "decentralization, management, and service" reform, form a scientific, standardized, interconnected, and efficient foreign work management system, and enhance the scientific, standardized, information-based, and international level of management and services.</p> 	<p><i>Notice of the Municipal Science and Technology Bureau and the Municipal Human Resources and Social Security Bureau on Issuing the Guidelines for Handling Work Permits for Foreigners in Tianjin (JKYZ [2023] No. 51)</i></p>

(V) Headquarters Economy

Support Type	No.	Key Policy Points	Applicable Subject	Basis
Regional headquarters and headquarters-type organizations of transnational corporations	1	The regional headquarters and headquarters-type organizations which have newly registered (or moved) in Tianjin and passed the certification after November 16, 2017, with the registered capital actually paid by the regional headquarters of not less than 10 million US dollars and by the headquarters-type organizations of not less than 5 million U.S. dollars, can enjoy financial subsidies and rewards in accordance with the <i>Notice of Tianjin Municipal Commission of Commerce and Municipal Finance Bureau on Printing and Distributing the Measures for the Use and Management of Special Funds to Encourage the Development of Regional Headquarters and Headquarters-type Organizations of Multinational Companies</i> (JSWZG [2018] No. 10).	Qualified regional headquarters and headquarters-type institutions	<i>Notice of 13 Departments Including Municipal Bureau of Commerce on Printing and Distributing the Several Provisions of Tianjin Municipality on Encouraging Multinational Companies to Set up Regional Headquarters and Headquarters-type Organizations</i> (JSXG [2019] No. 2)
	2	Further relax the conditions for the establishment of investment companies by foreign investors, and cancel the requirements for paid-in registered capital in China. Investment companies may establish financial companies in accordance with the <i>Administrative Measures for Enterprise Group Finance Companies</i> to provide centralized financial management services for their investment companies in China.	Foreign-funded enterprises establishing investment companies	
	3	The regional headquarters may establish a unified internal fund management system to implement unified management of its own funds. Qualified regional headquarters and headquarters-type institutions may, after filing with the Tianjin Branch of the State Administration of Foreign Exchange, carry out the centralized operation and management of cross-border funds of multinational companies in accordance with regulations.	Qualified regional headquarters and headquarters-type institutions	
	4	When investors from Hong Kong, Macau, and Taiwan regions register and set up regional headquarters and headquarters-type institutions in Tianjin, this regulation shall be referred to for implementation. This regulation will come into effect on the date of issuance and will be valid until November 7, 2024.	Investors from Hong Kong, Macao and Taiwan	

Support Type	No.	Key Policy Points	Applicable Subject	Basis
Regional headquarters and headquarters-type organizations of transnational corporations	5	Criteria for start-up funding. For regional headquarters and headquarters-type organizations that have registered and moved into Tianjin after November 16, 2017, if the number of employees is more than 10, they will be given RMB 5 million Yuan as a start-up subsidy. Starting from the next year of registration or moving into Tianjin, start-up subsidy funds will be distributed at a rate of 40%, 30%, and 30% in three years.	Qualified regional headquarters and headquarters-type organizations	<i>Notice of 13 Departments Including Municipal Bureau of Commerce on Printing and Distributing the Several Provisions of Tianjin Municipality on Encouraging Multinational Companies to Set up Regional Headquarters and Headquarters-type Organizations (JSXG [2019] No. 2)</i>
	6	Criteria for renting subsidies. For regional headquarters and headquarters-type organizations that have registered and moved into Tianjin after November 16, 2017, if the number of employees is more than 10, a one-time financial subsidy of RMB 1,000 Yuan per square meter for newly purchased and built self-use office buildings, with the maximum subsidy amount not exceeding RMB 10 million Yuan; for lease of office premises for self-use, a subsidy of 30% of the rent for three years shall be given according to the standard of no more than 1,000 square meters of office space and no more than RMB 8 Yuan per square meter per day.		
	7	Reward standard. A one-time subsidy of RMB 5 million Yuan shall be given to those that have been recognized as the regional headquarters of investment multinational companies or the regional headquarters of management multinational companies in Tianjin after November 16, 2017, whose annual turnover has exceeded RMB 1 billion Yuan for the first time since the year of certification. For those that are recognized as multinational corporation headquarters-type organization after November 16, 2017, whose annual turnover exceeds RMB 500 million Yuan for the first time since the recognition year, a one-time reward of RMB 5 million Yuan will be given.		
	8	For headquarters of multinational companies in Asia, Asia Pacific or larger regions newly established in Tianjin after November 16, 2017, if the number of employees is not less than 50 and the person in charge appointed by the parent company and the main senior management personnel related to the functions of the headquarters are permanently working in Tianjin, a start-up subsidy of RMB 8 million Yuan will be given, which will be distributed in proportions of 40%, 30%, and 30% in three years. If the established regional headquarters of multinational companies are upgraded to Asian, Asia-Pacific or larger regional headquarters, with no less than 50 employees, and the person in charge appointed by the parent company and the main senior management personnel related to the headquarters functions are permanently working in Tianjin, a one-time subsidy of RMB 3 million Yuan will be given.		

(VI) Protection of Rights and Interests

Support Type	No.	Key Policy Points	Basis
Administrative licensing	1	Where foreign investors invest in industries and fields that need to be licensed according to law, unless otherwise provided for by laws and administrative regulations, the relevant competent authorities responsible for implementing the license shall examine and verify the license application of foreign investors in accordance with the conditions and procedures consistent with those of domestic investors, and shall not set discriminatory requirements on foreign investors in terms of license conditions, application materials, review links, review time limits, etc.	<i>Regulations for the Implementation of the Foreign Investment Law of the People's Republic of China</i> (National Decree No. 723)
	2	All districts and departments shall strictly abide by the <i>Foreign Investment Law, Administrative Licensing Law</i> and other laws and regulations to implement administrative licensing for foreign investment, and shall not change the scope, procedures and standards of administrative licensing without authorization. Administrative agencies and their staff shall not force or disguisedly force foreign investors and foreign-invested enterprises to transfer technology through administrative licensing, supervision, inspection, administrative compulsion, etc.	<i>Notice of the Municipal Bureau of Commerce and the Municipal Development and Reform Commission on Printing and Distributing the Implementation Plan for Further Utilizing Foreign Capital in Tianjin</i> (JSZZ [2020] No. 1)
Participation in standard formulation	3	Implement the <i>Work Plan of Tianjin for Implementing the Special Action for Standardization and Upgrading of Industries and Enterprises</i> , and support enterprises to participate in the work of standardizing. Implement the <i>Tianjin Standardization Funding Projects and Fund Management Measures (Trial)</i> and encourage enterprises to lead the formulation of standards.	
Government procurement	4	Comprehensively clean up regulations and practices that impede fair competition in the government procurement field, and further optimize the business environment for government procurement. In terms of government procurement information release, supplier condition determination, bid evaluation standards, etc., no discriminatory treatment shall be imposed on foreign-invested enterprises, and the supplier's ownership form, organizational form, shareholding structure, or investor's country, and product or service brand shall not be restricted.	

Support Type	No.	Key Policy Points	Basis
Equal treatment	5	<p>Ensure that foreign-invested enterprises enjoy various support policies and equal treatment in accordance with the law and regulations. Each district shall maintain policy continuity and stability, strictly fulfill policy commitments made to foreign investors and foreign-invested enterprises in accordance with the law, and conscientiously fulfill various contracts signed in investment promotion and other activities in accordance with the law. Manage and provide services for foreign investment projects, and simultaneously promote tax exemption confirmation and financial discount policy packages for encouraged foreign investment projects when handling administrative licenses for enterprises to improve the convenience of enterprises' policy enjoyment. Implement inclusive and prudent supervision and flexible law enforcement in areas such as safety supervision, market supervision, and tax inspections in accordance with the law, and increase daily notification and guidance training. Efficiently operate the foreign investment protection joint meeting mechanism and foreign investment complaint work mechanism, and protect the legitimate rights and interests of foreign investment in accordance with laws and regulations.</p>	<p><i>Notice of the Municipal Development and Reform Commission and Other Departments on the Issuance of the Specific Measures for Tianjin to Promote Investment through the Increment Expansion, Stable Stock, and Quality Improvement with a Focus on the Manufacturing Industry (JFGWZ [2023] No. 7)</i></p>
	6	<p>Implement national treatment after foreign capital access with high standards. Ensure that foreign-invested enterprises enjoy equal support policies for national industrial and regional development in accordance with the law and regulations, and ensure that foreign-invested enterprises enjoy equal treatment in terms of factor acquisition, qualification licensing, operation, intellectual property protection, standard formulation, bidding, government procurement, etc.</p>	<p><i>Measures for Complaints from Foreign-funded Enterprises (Regulations for the Implementation of the Foreign Investment Law of the People's Republic of China (National Decree No. 723))</i></p>
Measures for complaints of foreign-funded enterprises	7	<p>The Ministry of Commerce is responsible for handling the following complaints:</p> <p>(I) Involving the administrative actions of the relevant departments of the State Council, the people's governments of provinces, autonomous regions, and municipalities directly under the Central Government and their staff;</p> <p>(II) Advising the relevant departments of the State Council and the people's governments of provinces, autonomous regions and municipalities directly under the Central Government to improve relevant policies and measures;</p> <p>(III) It has a significant national or international influence, and the Ministry of Commerce believes that it can be handled by it. The Ministry of Commerce has established the National Complaint Center for Foreign-invested Enterprises to be responsible for the specific handling of the complaints specified in the preceding paragraph.</p>	

Support Type	No.	Key Policy Points	Basis
Directory of organizations for complaints of foreign-funded enterprises	8	Complaint Center for Foreign-invested Enterprises Contact: Zhang Huicong, Tel: 010-64404523, Fax: 010-64515130, Email: fiecomplaint@fdi.gov.cn , Address: 3rd Floor, Building 1, No.28, Donghou Lane, Andingmenwai, Dongcheng District, Beijing.	<i>National Directory of Complaint Organizations for Foreign-funded Enterprises</i>

Chapter II

**Advanced
Manufacturing
Industry**

(I) Industrial Capacity Level

Support Type	No.	Key Policy Points	Applicable Subject	Basis
Key projects	1	<p>Support high-quality investment by industrial enterprises. For major industrial projects to supplement the shortcomings of key industries, with a total investment of over RMB 50 million Yuan, as well as new round of industrial technology transformation investment projects to promote intelligent, high-end, green, digital, low-carbon development, production and capacity expansion with a total investment of over RMB 10 million Yuan, a maximum support of RMB 50 million Yuan will be given based on 10% of the investment in equipment, software and hardware tools after completion and production. For industrial foundation reconstruction projects with a total investment of over RMB 20 million Yuan and belonging to breakthroughs and industrialization in the fields of basic parts, basic components, basic materials, basic processes, basic software, etc., a support of up to RMB 30 million Yuan will be given after completion and production, based on 20% of the investment in equipment, software and hardware tools.</p>	Industrial enterprise	<p><i>Notice of the General Office of the Tianjin Municipal People's Government on Issuing Several Policy Measures to Promote the High Quality Development of the Manufacturing Industry in Tianjin (JZBG [2023] No. 4)</i></p>
	2	<p>Support the construction of industrial vertical integration projects. For the fixed assets investment projects of key enterprises and supporting enterprises in each link of production and manufacturing due to new construction, reconstruction and expansion, based on 10% of the actual investment in each link of the project, up to RMB 15 million Yuan will be given per year for up to three years.</p>	Industrial enterprise	

Support Type	No.	Key Policy Points	Applicable Subject	Basis
Growth of enterprise scale	3	Support the sustained development and growth of industrial enterprises. For key enterprises with annual output exceeding RMB 100 billion Yuan, RMB 50 billion Yuan, or RMB 10 billion Yuan for the first time, and annual output growth meeting the requirements, the enterprises or enterprise management teams will be given a one-time reward of RMB 50 million Yuan, RMB 20 million Yuan, or RMB 10 million Yuan, respectively.	Industrial enterprise	<i>Notice of the General Office of the Tianjin Municipal People's Government on Issuing Several Policy Measures to Promote the High Quality Development of the Manufacturing Industry in Tianjin (JZBG [2023] No. 4)</i>
	4	Support industrial small and medium-sized enterprises to increase their scale. For small and micro industrial enterprises that have been included in the inventory of industrial enterprises above designated size for the first time and have not withdrawn from normal operation for two consecutive years, a one-time reward of up to RMB 50,000 Yuan will be given.	Industrial small and medium-sized enterprises	
	5	Implement key enterprise and major project introduction and cultivation projects. Provide local support as required for major projects and innovation centers of the National Development and Reform Commission, the Ministry of Science and Technology, and the Ministry of Industry and Information Technology. For key enterprises and major projects introduced in Tianjin, financial support will be provided based on comprehensive evaluations of investment scale, industrial growth, employment promotion, technological breakthroughs, and economic and social benefits, and the amount of support will be determined based on the evaluation results and annual financial sustainability.	Key enterprises and major projects	
Development of strategic emerging industries	6	Cultivate and strengthen strategy emerging industries. For enterprises included in the list of industrial strategic emerging industries in Tianjin and ranked in the top 50 in terms of newly added output value of strategic emerging industries in the previous year, a one-time reward of RMB 500,000 Yuan will be given.	Relevant qualified enterprises	
	7	Strive to become one of the top 100 enterprises in strategic emerging industries. For enterprises included in the top 10, 50, and 100 (including segmented industries) of China's top 100 strategic emerging industry leaders, support of RMB 20 million Yuan, RMB 5 million Yuan, and RMB 3 million Yuan will be provided at different levels. The cumulative maximum amount of support enjoyed by a single enterprise is RMB 20 million Yuan.	Relevant qualified enterprises	

Support Type	No.	Key Policy Points	Applicable Subject	Basis
Industrial cluster agglomeration development	8	Develop cluster promotion organizational and operation institutions. Cluster promotion organizations that have applied for and entered the list of winners in the advanced manufacturing cluster finals of the Ministry of Industry and Information Technology in Tianjin, or cluster operation institutions that have been included in the national strategic emerging industry cluster list, will be given a one-time reward of RMB 3 million Yuan. A one-time reward of RMB 1.5 million Yuan will be given to cluster promotion organizations that have jointly declared with Beijing and Hebei and entered the list of winners in the advanced manufacturing cluster finals of the Ministry of Industry and Information Technology. A one-time reward of RMB 1 million Yuan will be given to the cluster promotion organizations of advanced manufacturing industry at the municipal level and the cluster operation organizations of strategic emerging industry.	Eligible organizations or institutions	<p><i>Notice of the General Office of the Tianjin Municipal People's Government on Issuing Several Policy Measures to Promote the High Quality Development of the Manufacturing Industry in Tianjin (JZBG [2023] No. 4)</i></p>
	9	Build national demonstration bases for new industrialization industries. For industrial demonstration bases that are first evaluated as national new industrialization industry demonstration bases or selected as five-star bases in the annual development quality evaluation, a one-time reward of RMB 2 million Yuan will be given.	Industrial demonstration base	
	10	Support the distinctive development of the parks. For newly recognized municipal-level industrial theme parks, evaluation will be conducted based on the identified batches from the third year onwards, and the top 6 parks in each batch will be rewarded for 2 consecutive years. Among them, the top three parks will receive a reward of RMB 3 million Yuan each year, while the fourth to sixth parks will receive a reward of RMB 2 million Yuan each year.	Municipal-level industrial theme parks	

Support Type	No.	Key Policy Points	Applicable Subject	Basis
Gradient cultivation of high-quality manufacturing enterprises	11	Cultivate leading enterprises. Enterprises included in the list of national manufacturing industry leaders will be given a one-time reward of up to RMB 20 million Yuan. A one-time reward of up to RMB 6 million Yuan will be given to the key pilot enterprises cultivated in Tianjin.	Enterprises included in the list of national manufacturing industry leaders	<i>Notice of the General Office of the Tianjin Municipal People's Government on Issuing Several Policy Measures to Promote the High Quality Development of the Manufacturing Industry in Tianjin (JZBG [2023] No. 4)</i>
	12	Motivate individual champions. For national manufacturing individual champion enterprises and products, a one-time reward of RMB 10 million Yuan and RMB 3 million Yuan will be given respectively. For the key individual champion enterprises and products cultivated in Tianjin, a one-time reward of RMB 1 million Yuan will be given.	National manufacturing individual champion enterprises and products	
	13	Develop professional, refined, specialized, and innovative enterprises. For small and medium-sized enterprises that have become national "little giants" in terms of professionalism, refinement, specialization, and innovation for the first time, a maximum reward of RMB 2 million Yuan will be given based on hierarchical classification.	Small and medium-sized enterprises with professionalism, refinement, specialization, and innovation as national "little giants"	

(II) Transformation and Upgrading

Support Type	No.	Key Policy Points	Applicable Subject	Basis
Promotion of industrial digital transformation	1	Promote pilot projects for intelligent manufacturing. For projects such as pilot projects and new model applications in the field of national and municipal intelligent manufacturing, support of up to RMB 10 million Yuan will be provided based on 30% and 20% of the actual investment amount, respectively. For units rated as national-level intelligent manufacturing and industrial internet system solution suppliers, a one-time reward of RMB 5 million Yuan will be given. Encourage intelligent manufacturing and industrial internet system solution providers to provide solutions to users, who will be given up to RMB 10 million Yuan for support based on the quality of service solutions and hierarchical classification.	Eligible projects	<i>Notice of the General Office of the Tianjin Municipal People's Government on Issuing Several Policy Measures to Promote the High Quality Development of the Manufacturing Industry in Tianjin (JZBG [2023] No. 4)</i>
	2	Support projects in the field of digital transformation of manufacturing industry. For national pilot demonstration projects, support of up to RMB 5 million Yuan will be given based on 30% of the actual investment amount; for key projects at the municipal level, a maximum of RMB 3 million Yuan will be supported based on 20% of the actual investment amount. Accelerate the deployment of industrial enterprises to the cloud, and provide support of up to RMB 500,000 Yuan for key cloud projects at 30% of the expenditure. Promote industrial enterprises to implement the upgraded version of the integrated management system for information and industrialization, and provide a one-time reward of up to RMB 500,000 Yuan based on the graded classification of the evaluated enterprises.	National pilot demonstration projects	
	3	Promote the development of service-oriented manufacturing and industrial design. For enterprises that have become national service-oriented manufacturing demonstration enterprises and national industrial design centers (research institutes) for the first time, a one-time reward of RMB 1 million Yuan will be given. For enterprises that have become key cultivation enterprises for service-oriented manufacturing at the municipal level and cultivation enterprises for industrial design centers (research institutes) at the municipal level for the first time, a one-time reward of RMB 500,000 Yuan will be given.	Eligible projects	

(III) Innovation Capability

Support Type	No.	Key Policy Points	Applicable Subject	Basis
Establishment of an innovation platform for the manufacturing industry	1	<p>Encourage research institutes to come to Tianjin for development. For national and provincial scientific research institutes that have settled in Tianjin and have carried out scientific and technological innovation work, a maximum of RMB 30 million Yuan will be provided based on hierarchical classification according to 30% of the actual investment amount.</p>	Qualified research institutes	<p><i>Notice of the General Office of the Tianjin Municipal People's Government on Issuing Several Policy Measures to Promote the High Quality Development of the Manufacturing Industry in Tianjin (JZBG [2023] No. 4)</i></p>
	2	<p>Strengthen data element support. For data projects that directly drive the development of the manufacturing industry, a maximum support of RMB 2 million Yuan will be given based on 20% of the actual investment amount. Strengthen data security protection and guide manufacturing enterprises to build a data security system.</p>	Eligible projects	

The background features a series of light gray, wavy lines that create a sense of motion and depth. A large, semi-transparent number '03' is positioned behind the main text, with the '0' being significantly larger than the '3'.

Chapter III

**Scientific and
Technological
Innovation**

(I) Scientific and Technological Innovation

Support Type	No.	Key Policy Points	Applicable Subject	Basis
Policy support	1	<p><i>Compilation of Key Policy Points of Scientific and Technological Innovation in Tianjin (2023 Version)</i></p> 	Scientific and technological innovation enterprises	Published on the website of Tianjin Science and Technology Bureau

(II) Foreign-funded R&D Center

Support Type	No.	Key Policy Points	Applicable Subject	Basis
Foreign-funded R&D center	1	<p>For the foreign-funded R&D centers in Tianjin approved by the Municipal Bureau of Commerce in conjunction with the Municipal Finance Bureau, the Municipal Taxation Bureau and Tianjin Customs, the import of scientific research, technological development and teaching materials that cannot be produced in China or whose performance cannot meet the demand will be exempted from import tariffs and import links value-added tax and consumption tax.</p>	Foreign-funded R&D centers approved by relevant departments	<p><i>Notice of 4 Departments Including the Municipal Bureau of Commerce on Doing a Good Job in Tax Exemption Qualification Examination of Foreign-funded R&D Centers (JSXG [2021] No. 2)</i></p>

Support Type	No.	Key Policy Points	Applicable Subject	Basis
Foreign-funded R&D center	2	<p>Tax exemption and refund processing:</p> <p>(I) The list of the first batch of importers will be implemented from January 1, 2021, and the tax exemptions collected within 30 days after the first batch of list is issued will be refunded; and the list of subsequent batches will be implemented from the 20th day after the date of issuance of the list.</p> <p>(II) The tax exemption collected as stipulated in the preceding paragraph shall be refunded upon the application of the importing entity. Among them, for imports that have been taxed and have not yet declared input value-added tax deduction, it is necessary to obtain in advance the <i>Status of Non-deduction of Import Value-Added Tax on Imported Goods during the “14th Five-Year Plan” Period under Import Tax Policy for Support of Scientific and Technological Innovation</i> issued by the competent tax authority, apply to the customs for the refund of the collected import duties and handle the import value-added tax procedures. If the input value-added tax deduction has been declared, it is necessary to only apply to the customs for the refund of the collected import duties.</p>	Foreign-funded R&D centers approved by relevant departments	<p><i>Notice of 4 Departments Including the Municipal Bureau of Commerce on Doing a Good Job in Tax Exemption Qualification Examination of Foreign-funded R&D Centers (JSXG [2021] No. 2)</i></p>
	3	<p>Tax policy implementation period: from January 1, 2021 to December 31, 2025.</p>		

Support Type	No.	Key Policy Points	Applicable Subject	Basis
Foreign-funded R&D center	4	Promote industry-university-research collaborative innovation. Encourage ordinary higher education institutions, research institutes, vocational schools, and foreign-funded R&D centers to cooperate in technological research and protect the intellectual property rights of both parties. Encourage foreign R&D centers to carry out technical cooperation with vocational schools, establish training bases, and jointly build technology and skill innovation platforms such as joint laboratories. Support foreign R&D centers to participate in the achievement transformation, docking, and innovation and entrepreneurship platforms established in various regions. Support foreign R&D centers to establish postdoctoral research workstations in accordance with regulations. Qualified postdoctoral research workstations can independently recruit postdoctoral researchers upon approval.	Foreign-funded R&D centers approved by relevant departments	<i>Notice of the General Office of the State Council on Forwarding Several Measures of the Ministry of Commerce and the Ministry of Science and Technology on Further Encouraging Foreign Investors to Establish R&D Centers (GBH [2023] No. 7)</i>
	5	Encourage and support foreign R&D centers to undertake national scientific and technological tasks, participate in major national scientific and technological plan projects, pilot multilingual release of project plans, appropriately extend project application deadlines, and improve project application convenience. Actively attract qualified technology experts of foreign R&D centers to enter the national technology expert database and relevant local technology expert databases to participate in the consultation, evaluation, and management of technology plan projects.		
	6	Optimize the management process for external transfer of intellectual property rights and technology import and export. Improve the working system related to the external transfer of intellectual property rights, and guide local governments to do a good job in supporting the system of external transfer of intellectual property rights, linking mechanisms and optimizing processes. Optimize technology import and export management, study facilitation arrangements for cross-border technology transfer within multinational enterprise groups, strengthen policy promotion and interpretation, and provide training and guidance.		
	7	Optimize the customs clearance and supervision process of scientific research materials. Actively conduct biosafety risk assessments on imported genetically modified organisms and biomaterials of animals and plants introduced by foreign R&D centers for national and provincial scientific research projects, and provide convenient arrangements for quarantine approval if they meet the requirements. Support the extension of the re-shipment exit period for key R&D equipment and testing vehicles temporarily imported by foreign R&D centers for R&D purposes in accordance with regulations.		

Support Type	No.	Key Policy Points	Applicable Subject	Basis
Foreign-funded R&D center	8	<p>Implement tax policies to support technological innovation, and exempt qualified foreign R&D centers from import tariffs, import value-added tax, and consumption tax on scientific research, technological development, and teaching supplies that cannot be produced domestically or whose performance cannot meet their needs; and for foreign-funded R&D centers that meet the conditions for tax refund, the value-added tax on purchased domestically produced equipment will be fully refunded. For tax exemption applications submitted by foreign-funded R&D centers, the customs department shall establish a “green channel” for review, prioritize the application of the “commitment system” for processing, and facilitate the consultation of preferential policies. Strengthen guidance and services for foreign-funded R&D centers applying for recognition as high-tech enterprises, and encourage and guide foreign investment to invest more in the scientific and technological innovation field. Qualified enterprise-type foreign R&D centers can enjoy R&D expense additional deduction and high-tech enterprise income tax preferential policies. Foreign R&D centers that comply with the <i>Several Provisions of Tianjin Municipality on Encouraging Multinational Companies to Establish Regional Headquarters and Headquarter-Type Institutions</i> can enjoy relevant support policies in accordance with the law. Proactively serve and provide “one-on-one” guidance to foreign R&D centers in difficulties when enjoying benefits.</p>	Eligible foreign-funded R&D centers	<p><i>Notice of Tianjin Municipal Bureau of Commerce and Tianjin Municipal Bureau of Science and Technology on Issuing the Implementation Measures for Further Encouraging Foreign Investment to Establish R&D Centers in Tianjin</i> (JSWG [2023] No. 2)</p>
	9	<p>Encourage basic research. Fully leverage the role of Tianjin’s large-scale scientific research instrument open sharing platform, and support foreign R&D centers to apply for use in accordance with the law. Provide assistance to foreign-funded R&D centers in using scientific and technological reports and related data from national major science and technology projects in accordance with the law. For new R&D institutions established by foreign investors to provide services for the research and development of key common technologies in the region, support will be provided in terms of infrastructure construction, equipment procurement, talent supporting services, and operating expenses. Provide commodity classification guidance services for foreign R&D centers’ imported equipment with tax reduction and exemption, and shorten the time limit for enterprise classification pre-judgment processing.</p>		

Support Type	No.	Key Policy Points	Applicable Subject	Basis
Foreign-funded R&D center	10	Promote industry-university-research collaborative innovation. Encourage foreign R&D centers to collaborate with local universities, vocational schools, research institutes, and enterprises to carry out core technology research and graduate training in the industrial chain, and jointly build collaborative platforms such as practical bases, industrial colleges, industry-university-research joint laboratories, and data sharing platforms. Encourage foreign R&D centers to shown their scientific and technological achievements in Tianjin Science and Technology Exhibition and Trading Center, and provide services for the listing, display and trading of scientific and technological achievements of foreign R&D centers. Strengthen guidance on the application of employers and support foreign R&D centers to apply to the Ministry of Human Resources and Social Security for the establishment of postdoctoral research workstations in accordance with regulations. For qualified postdoctoral research workstations, actively recommend them to the Ministry of Human Resources and Social Security, and with the approval of the Ministry, they can independently recruit postdoctoral researchers.	Qualified foreign R&D centers	<p><i>Notice of Tianjin Municipal Bureau of Commerce and Tianjin Municipal Bureau of Science and Technology on Issuing the Implementation Measures for Further Encouraging Foreign Investment to Establish R&D Centers in Tianjin (JSWG [2023] No. 2)</i></p>
	11	Support the establishment of open innovation platform. Support foreign investors to set up open innovation platform-type R&D centers, strengthen the guarantee of land, equipment, infrastructure and other elements, and achieve collaborative innovation by providing facilities, equipment, R&D sites and professional guidance, and integrating technology, talent, capital, industrial chain and other resources with enterprises, universities, research institutes. Recommend qualified platform-type R&D centers to apply for the construction of the International Cooperation Joint Laboratory of the Ministry of Education. Support the application of registration methods such as “one address with multiple licenses” and cluster registration for enterprises entering the platform. Except for market entities with special management requirements, enterprises entering the platform can use the same address in Tianjin that meets regulations to register as their residence (business premises).		
	12	Encourage financial institutions to actively use and leverage the role of policy tools such as technological innovation loans in guiding and leveraging, optimize service processes, increase credit allocation, and fully meet the reasonable financing needs of foreign R&D centers. Encourage banking and insurance institutions to create financial products based on the financial needs and industry characteristics of foreign R&D centers while ensuring controllable risks and sustainable business operations, actively connect with business departments at all levels and foreign R&D centers, and fully utilize credit information resources and internal financial data to increase financial support.		

Support Type	No.	Key Policy Points	Applicable Subject	Basis
Foreign-funded R&D center	13	<p>Smooth channels for participating in government projects. Encourage foreign R&D centers to apply to undertake national scientific and technological tasks, participate in major national scientific and technological plan projects, and provide appropriate convenience in interpreting project application guidelines and applying project language. Smooth the channel for foreign R&D centers to undertake science and technology plan projects in Tianjin, and encourage and support foreign R&D centers to apply for and undertake various science and technology plan projects. Actively attract qualified technology experts of foreign R&D centers to apply for admission to Tianjin's technology expert database and participate in the consultation, evaluation, and management of technology plan projects.</p>	Qualified foreign R&D centers	<p><i>Notice of Tianjin Municipal Bureau of Commerce and Tianjin Municipal Bureau of Science and Technology on Issuing the Implementation Measures for Further Encouraging Foreign Investment to Establish R&D Centers in Tianjin (JSWG [2023] No. 2)</i></p>
	14	<p>Optimize the customs clearance and supervision process of scientific research materials. Actively conduct biosafety risk assessments on imported genetically modified organisms and biomaterials of animals and plants introduced by foreign R&D centers for national and provincial scientific research projects, and provide convenient arrangements for quarantine approval if they meet the requirements. According to the <i>Announcement of the General Administration of Quality Supervision, Inspection, and Quarantine on Promoting the Pilot Experience of Beijing-Tianjin-Hebei-Shanghai Imported Biological Materials Supervision and Conducting a New Round of Pilots</i> (formerly Announcement No. 94 of the General Administration of Quality Supervision, Inspection, and Quarantine in 2017) and the requirements of the General Administration of Customs on authorizing all directly affiliated customs to implement quarantine approval for some imported biological materials, conduct the quarantine approval work. Support the extension of the re-shipment exit period for goods such as R&D specialized key equipment and testing vehicles temporarily imported by foreign R&D centers for R&D purposes in accordance with relevant regulations on temporary entry and exit goods management, and provide convenience for handling extension procedures.</p>		

Support Type	No.	Key Policy Points	Applicable Subject	Basis
Technological innovation	15	<p>Promote the implementation of policies to support enterprise innovation. Promote the implementation of inclusive policies to the fullest such as additional deduction of R&D expenses, reduction and exemption of income tax for high-tech enterprises, exemption of value-added tax for technology development and transfer, reduction and exemption of enterprise income tax for technology transfer, and reduction and exemption of income tax for small and micro profit enterprises. Further implement the subsidy policy for enterprise research and development investment, and provide subsidies based on comprehensive ranking. Implement the technology innovation voucher policy, with a focus on supporting enterprises to purchase technology services such as research and development, inspection and testing directly related to their technology innovation activities from innovation voucher service institutions. Make good use of innovation policy tools such as the national independent innovation demonstration zone innovation and entrepreneurship through ticket and the enterprise innovation credit system.</p>	Relevant eligible enterprises	<p><i>Notice of the Municipal Science and Technology Bureau and the Municipal Finance Bureau on Issuing the Work Measures of the Ministry of Science and Technology and the Ministry of Finance for Implementing the Action Plan for Improving Enterprise Technological Innovation Ability (2022-2023) in Tianjin (JKZ [2023] No. 25)</i></p>
	16	<p>Promote the open sharing of technological resources to enterprises. Promote the open sharing of large-scale scientific instruments. Promote the collaborative interaction of scientific and technological innovation policies and the sharing of scientific and technological information resources with enterprises in the Beijing-Tianjin-Hebei region, and continuously improve mechanisms such as the qualification of high-tech enterprises, mutual recognition of scientific and technological innovation vouchers, and sharing of large-scale scientific research instruments in the Beijing-Tianjin-Hebei region. Connect with the national scientific and technological literature infrastructure and build a safe and reliable scientific and technological information resource discovery service platform to serve enterprise innovation. Promote the National Supercomputing Tianjin Center to carry out technological breakthroughs in the top ten application challenges to enhance the level of national independent computing power application; and provide computing services to enterprises and encourage them to undertake national strategic tasks.</p>		

Support Type	No.	Key Policy Points	Applicable Subject	Basis
Technological innovation	17	<p>Continuously improve the functions of innovation incubation carriers. Improve the development model of “investment + incubation” for incubation institutions, make good use of the incubator’s own seed funds, support the establishment of angel funds targeting early projects, support the integration of incubators with existing angel mother funds in Tianjin, and continue to support technology-based enterprises. Accelerate the construction and development of university science and technology parks, and fully leverage their functions of transforming scientific and technological achievements and incubating scientific and technological enterprises. Give full play to the functions of the industrial technology research institutes in gathering resources, technology supply, transformation and incubation, talent transfer, and give priority to supporting their incubation and cultivation of a batch of high-quality and high-growth enterprises.</p>	Relevant qualified enterprises	<p><i>Notice of the Municipal Science and Technology Bureau and the Municipal Finance Bureau on Issuing the Work Measures of the Ministry of Science and Technology and the Ministry of Finance for Implementing the Action Plan for Improving Enterprise Technological Innovation Ability (2022-2023) in Tianjin (JKZ [2023] No. 25)</i></p>
	18	<p>Establish an annual assessment and financial reward system for industrial technology research institutes. Focus on stimulating the innovative vitality of the industrial technology research institutes, cultivate emerging industries, accelerate the integrated development of technology and economy, evaluate the performance of the industrial technology research institutes in technology development, achievement transformation, enterprise incubation, and contribution to local economy in the previous year; establish an annual assessment and financial fund reward system, and give rewards to the best according to the assessment results, and the maximum amount of annual reward shall not exceed RMB 10 million Yuan for each institute, but under special circumstances (for especially excellent institutes), the upper limit of reward subsidies can be exceeded, and strong support can be given.</p>	Relevant qualified enterprises	<p><i>Several Opinions of the General Office of the Tianjin Municipal People’s Government on Accelerating the Construction and Development of Industrial Technology Research Institutes (JZBF [2018] No. 24)</i></p>

Chapter IV

**Industrial
Policies**

04

(I) Intelligent Technology

Support Type	No.	Key Policy Points	Applicable Subject	Basis
Information technology	1	Support the construction of industrial internet platforms and security systems. For cross industry and cross-domain comprehensive industrial internet platforms that have been recognized by the state, a maximum of RMB 10 million Yuan will be given support based on 30% of the actual investment amount. For industrial internet platforms and security projects that have obtained national pilot demonstrations and major special projects, a maximum support of RMB 5 million Yuan will be given based on 30% of the actual investment amount. For key industrial internet platforms and security projects at the municipal level, a maximum of RMB 3 million Yuan will be provided based on 20% of the actual investment amount.	Industrial Internet platform and security system	<i>Notice of the General Office of the Tianjin Municipal People's Government on Issuing Several Policy Measures to Promote the High Quality Development of the Manufacturing Industry in Tianjin (JZBG [2023] No. 4)</i>
	2	Support the development of software and information technology service industries. For software and information technology service industry projects that have been approved for national major projects, 1:1 supporting support will be provided according to the national allocation of funds, with a maximum of RMB 10 million Yuan. For national pilot demonstration projects in the field of software and information technology services, support of up to RMB 10 million Yuan will be given based on 20% of the actual investment amount; for municipal-level key projects, a maximum of RMB 3 million Yuan will be given as support based on 10% of the actual investment amount. For enterprises that have passed the national <i>Data Management Capability Maturity Assessment Model</i> (GB/T 36073-2018, DCMM) and Information Technology Service Standards (ITSS) certification for the first time, a one-time reward of up to RMB 500,000 Yuan will be given based on hierarchical classification.	Software and information technology service industry	

Support Type	No.	Key Policy Points	Applicable Subject	Basis
Smart factories	3	<p>Create digital workshops and intelligent factories. Release intelligent manufacturing project solicitation plans every year to guide manufacturing enterprises to use information technology, automation, measurement and control technology, and other means to connect different units in the workshop with data and thus to plan, manage, diagnose, and optimize the production and operation process based on the construction of application scenarios. By utilizing policies such as establishing a market of the manufacturing industry, support enterprises in carrying out digital transformation and intelligent upgrading of manufacturing units, production lines, workshops, and factories. Conduct project selection, evaluate later effectiveness, and publish a list, striving to cultivate 100 digital workshops and intelligent factories annually, with a total of 300 within three years. Among them, the equipment manufacturing industry (construction of 150 smart factories) focuses on fields such as automobiles, industrial robots, marine equipment, and rail transit equipment; raw materials industry (construction of 70 smart factories) focuses on fields such as modern metallurgy, petroleum and petrochemical, and building materials; consumer goods industry (construction of 40 smart factories) focuses on areas such as bicycles, furniture and building materials; electronic information industry (construction of 30 smart factories) focuses on integrated circuits, intelligent hardware, intelligent sensing and other fields; and the biopharmaceutical industry (construction of 10 smart factories) focuses on fields such as chemical medicine, modern Chinese medicine, and biological products.</p>	Relevant qualified enterprises	<p><i>Notice of Tianjin Municipal Bureau of Industry and Information Technology on Issuing the Implementation Plan for the Construction of Intelligent Factories in Tianjin (JGXZB [2023] No. 12)</i></p>
	4	<p>On the basis of 100 typical application scenarios of intelligent manufacturing and 300 digital workshops/intelligent factories, explore a batch of application scenarios, digital workshops, and intelligent factories with significant intelligent manufacturing results, outstanding demonstration effects, and good growth potential through case collection, intelligent manufacturing innovation competitions, and other methods. Promote and demonstrate them in key industries such as high-end equipment, raw materials, and biopharmaceuticals, drive a batch of breakthrough, driving, and demonstrative intelligent manufacturing pilot demonstration projects, and create national level intelligent manufacturing pilot demonstration factories and excellent scenarios.</p>	Eligible projects	

(II) Emerging Industries

Support Type	No.	Key Policy Points	Applicable Subject	Basis
Biomedicine	1	For the import of items included in the “white list”, biopharmaceutical enterprises (research and development institutions) shall use the “white list” identification document to replace the <i>Imported Medicine Customs Clearance Form</i> to complete the import declaration and inspection procedures at Tianjin Customs.	Biopharmaceutical enterprises	<i>Notice on Issuing the Pilot Plan for the Import of Biopharmaceutical Research and Development Articles in Tianjin</i> (JYJYZ [2022] No. 13)
	2	For imported goods included in the “white list”, pilot enterprises shall use the “white list” identification document to replace the <i>Imported Medicine Customs Clearance Form</i> to handle the declaration and inspection procedures at Tianjin Port. The “white list” identification document can be used for customs declaration in batches within the approved import quantity. The customs shall verify the content of the “white list” identification document and annotate it in the “Customs Inspection and Release Endorsement Column” of the original “white list” identification document. When using the “white list” identification document, if it is necessary to change the content, the pilot enterprise shall reapply to the Joint Promotion Mechanism Office for entry into the “white list”.	Biopharmaceutical enterprises	
	3	Implement entity responsibility. Pilot enterprises (R&D institutions) must establish and improve internal control systems, designate dedicated personnel to manage the import of R&D items, and establish a ledger for the use of imported items. Pilot enterprises shall strictly carry out research and development work in accordance with the application purpose, and shall not engage in selling, donating, exchanging imported goods, or other changes in the ownership and purpose of pharmaceutical research and development goods. Pilot enterprises shall bear the quality safety of imported goods, use management, and risk prevention and treatment during the process to prevent abuses.	Biopharmaceutical enterprises	

Support Type	No.	Key Policy Points	Applicable Subject	Basis
Biomedicine	4	<p>Support the development of biomedicine and traditional Chinese medicine. For biopharmaceutical enterprises that introduce major projects and accelerate industrialization through the purchase of approval documents (certificates) for medicines, medical devices, etc., a maximum of RMB 10 million Yuan will be provided according to hierarchical classification based on 10% of the purchase price of the approval documents (certificates). Guide enterprises to obtain market access in fields such as chemical medicine, modern traditional Chinese medicine, biological products, medical devices, and formula foods for special medical purposes, encourage to pass consistency evaluation of generic drugs, cultivate pharmaceutical contract customization production enterprises (CMO), pharmaceutical contract customization research and development and production enterprises (CDMO), and provide support of up to RMB 10 million Yuan according to hierarchical classification.</p>	Biopharmaceutical enterprises	<p><i>Notice of the General Office of the Tianjin Municipal People's Government on Issuing Several Policy Measures to Promote the High Quality Development of the Manufacturing Industry in Tianjin (JZBG [2023] No. 4)</i></p>
	5	<p>If there is no administrative penalty or unqualified product quality spot check in current year and one of the following circumstances is met, the on-site inspection can be exempted or only the authenticity of the sample is verified:</p> <p>(1) The product applied for registration of Class II medical devices (including in vitro diagnostic reagents) has the same production address as the product that has passed the system verification (including Class III system verification) within two years, and has basically the same production conditions and production processes;</p> <p>(2) The change registration of medical devices can prove the safety and effectiveness of medical devices through material review;</p> <p>(3) The recheck application after rectification can be verified through data review;</p> <p>(4) Other situations requiring only data review.</p>	Enterprises engaged in medical device business	<p><i>Notice of Tianjin Drug Administration on Relevant Matters Concerning Reduction or Exemption of On-site Inspection of Class II Medical Device Registration System (JYJXZ [2022] No. 6)</i></p>

Support Type	No.	Key Policy Points	Applicable Subject	Basis
New energy	6	In qualified industrial enterprises and industrial parks, accelerate the development of new energy projects such as distributed photovoltaic and decentralized wind power, support the construction of industrial green micro grid and integration of power supply, power grid, load, and energy storage, promote the complementary and efficient use of multiple energy, carry out the pilot project of direct power supply of new energy power, and increase the proportion of new energy power used at terminals.	Industrial enterprises and industrial parks	<i>Notice of the General Office of the State Council on Forwarding the Implementation Plan of the National Development and Reform Commission and the</i>
	7	By 2025, the photovoltaic coverage rate of new buildings on the roof of public institutions will strive to reach 50%; and public institutions are encouraged to install photovoltaic or solar thermal utilization facilities in existing buildings.	Public institutions	<i>National Energy Administration on Promoting the High Quality Development of New Energy in the New Era (GBH [2022] No. 39)</i>
	8	Support new energy projects to carry out direct transactions with users, encourage the signing of long-term power purchase and sale agreements, and power grid enterprises shall take effective measures to ensure the implementation of the agreements.	Power grid enterprises	
	9	With reference to the management mode of the supply of fuel oil for bonded ships, liquefied natural gas (LNG) is allowed to enjoy the bonded policy as the fuel for international navigation ships.	Enterprises in related fields	<i>Notice of the Ministry of Commerce on Printing and Distributing the Overall Plan of Tianjin's Comprehensive Pilot Program for Expanding the Opening up of the Service Industry (SZF No. 62 in 2021)</i>
	10	Support the development of new energy. Provide new energy system solutions around key areas such as lithium-ion batteries and materials, wind energy, solar energy, hydrogen energy, etc. Based on enterprise infrastructure construction and system integration effects, provide support of up to RMB 4 million Yuan based on hierarchical classification.	Relevant qualified enterprises	<i>Notice of the General Office of the Tianjin Municipal People's Government on Issuing Several Policy Measures to Promote the High Quality Development of the Manufacturing Industry in Tianjin (JZBG [2023] No. 4)</i>

Support Type	No.	Key Policy Points	Applicable Subject	Basis
New materials	11	<p>From January 1, 2021 to December 31, 2030, the manufacturers of new display devices (i.e. thin-film transistor liquid crystal display devices, active matrix organic light-emitting diode display devices, and Micro-LED display devices, the same below) who import self-use productive (including those for research and development, the same below) raw materials, consumables, clean room supporting systems, and production equipment (including imported equipment and domestic equipment) spare parts which cannot be produced domestically or whose performance cannot meet the demand and the manufacturers of key raw materials and parts of the new display industry (i.e. target materials, photoresist, mask, polarizer, color filter film) who import self-use productive raw materials and consumables that cannot be produced in China or whose performance cannot meet the demand are exempted from import duties.</p>	New display device manufacturers	<p><i>Notice of the Ministry of Finance, the General Administration of Customs and the State Administration of Taxation on the Import Tax Policy to Support the Development of New Display Industry from 2021-2030</i> (CGS [2021] No. 19)</p>
	12	<p>For companies undertaking major projects for new display devices which import new equipment from January 1, 2021 to December 31, 2030, except for those listed in the Catalogue of Import Commodities Not Exempted from Tax for Domestic Investment Projects, the Catalogue of Import Commodities Not Exempted from Tax for Foreign Investment Projects, and the Catalogue of Imported Major Technical Equipment and Products Not Exempted from Tax, a customs-recognized tax guarantee is provided for unpaid taxes. It is allowed to pay import value-added tax in installments within 6 years (72 consecutive months) after the first equipment is imported, and successively pay 0%, 20%, 20%, 20%, 20%, and 20% of the total value of import value-added tax each year (12 consecutive months) for 6 years. Taxes paid since the date of import of the first equipment will not be refunded. During the period of installment tax payment, the customs shall not levy late fees for the taxes paid in installments.</p>	Enterprises undertaking major projects of new display devices	
	13	<p>Support the development of new materials. Encourage enterprises and institutions to build new material industry service platforms around key areas such as resource sharing, pilot testing, and application, and provide support of up to RMB 10 million Yuan based on 20% of the actual investment amount.</p>	Relevant qualified enterprises	<p><i>Notice of the General Office of the Tianjin Municipal People's Government on Issuing Several Policy Measures to Promote the High Quality Development of the Manufacturing Industry in Tianjin</i> (JZBG [2023] No. 4)</p>

(III) Advantageous Industries

Support Type	No.	Key Policy Points	Applicable Subject	Basis
Aerospace	1	From January 1, 2021 to December 31, 2030, civil aircraft design and manufacturing companies, domestic airlines, maintenance organizations, and aviation equipment distributors are exempted from import duties when importing maintenance aviation equipment that cannot be produced or whose performance cannot meet the demand in China.	Relevant qualified enterprises	<i>Notice of the Ministry of Finance and the General Administration of Customs on the Import Tax Policy of Aviation Equipment to Support Civil Aviation Maintenance from 2021-2030</i> (CGS [2021] No. 15)
	2	Remove foreign investment restrictions on railway passenger transportation companies, international maritime transportation, and international shipping agencies, and allow foreign investors to invest in air transportation sales agency companies. Relax the conditions for foreign investors to establish investment companies, reduce the total assets of foreign investors to no less than USD 200 million in the year before the application, and remove the restrictions on the number of foreign-invested enterprises that foreign investors have established in China.	Foreign-funded enterprises	<i>Notice of the General Office of Tianjin Municipal People's Government on Several Measures for Tianjin to Expand Opening up and Build a New Open Economic System</i> (JZBF [2019] No. 25)

Support Type	No.	Key Policy Points	Applicable Subject	Basis
Aerospace	3	<p>Support the development of aerospace. For key projects that make up for the shortcomings of key links in the industry, a maximum support of RMB 5 million Yuan will be given based on 10% of the actual investment amount. For enterprises that have obtained national and international civil aircraft model certificates, production licenses, maintenance licenses, and other certificates, a one-time reward of up to RMB 2 million Yuan will be given by classification.</p>	Relevant qualified enterprises	<p><i>Notice of the General Office of the Tianjin Municipal People's Government on Issuing Several Policy Measures to Promote the High Quality Development of the Manufacturing Industry in Tianjin (JZBG [2023] No. 4)</i></p>
High-end equipment	4	<p>Support the development of high-end equipment. Encourage enterprises to develop and produce products such as robots, industrial motherboards, and related components. For high-end equipment and high-quality application scenarios, a maximum of RMB 10 million Yuan will be given based on 10% of the actual investment amount.</p>	Relevant qualified enterprises	
Petrochemicals	5	<p>Support the development of green petrochemicals. Optimize the procedures for land/sea use and minimize the processing time for land/sea use projects. Optimize the management mode of the industrial accumulation area and promote the integration of project approval, land supply, supporting project construction, port logistics, safety and environmental protection management, and enterprise services according to the idea of upstream and downstream integrated development, so as to realize the coordinated development of all links.</p>	Relevant qualified enterprises	

Support Type	No.	Key Policy Points	Applicable Subject	Basis
Automobiles	6	<p>From May 1, 2020 to December 31, 2023, for taxpayers engaged in second-hand car dealership, in the case of sales of second-hand cars purchased by them, the VAT is imposed at an additional reduced rate of 0.5% from the reduced rate of 2% other than the original 3% in accordance with the simplified method.</p>	Relevant qualified enterprises	<p><i>Announcement of the Ministry of Finance and the State Administration of Taxation on VAT Policies Related to Second-hand Car Sales</i> (Announcement the Ministry of Finance and the State Administration of Taxation [2020] No. 17)</p>
	7	<p>Support the development of IoV. Increase the priority of IoV policies and expand the scale of operations. Encourage the development of vehicle-road collaborative applications, and provide up to RMB 1 million Yuan of support to operational entities with good application results based on the application results.</p>	Relevant qualified enterprises	<p><i>Notice of the General Office of the Tianjin Municipal People's Government on Issuing Several Policy Measures to Promote the High Quality Development of the Manufacturing Industry in Tianjin</i> (JZBG [2023] No. 4)</p>
	8	<p>Support the development of automobiles and new energy vehicles. For complete vehicle enterprises that incorporate new models into the <i>Road Motor Vehicle Production Enterprises and Product Announcement</i>, a maximum reward of RMB 2 million Yuan will be given for each new model by classification.</p>	Vehicle enterprises	<p><i>Notice of the General Office of the Tianjin Municipal People's Government on Issuing Several Policy Measures to Promote the High Quality Development of the Manufacturing Industry in Tianjin</i> (JZBG [2023] No. 4)</p>

Support Type	No.	Key Policy Points	Applicable Subject	Basis
Integrated circuit	9	<p>Support the development of integrated circuits. For major special and pilot demonstration projects such as the “Xinhua” innovation and entrepreneurship base (platform) in Tianjin, equal rewards will be given according to the amount of national support. For integrated circuit design enterprises with annual sales revenue exceeding RMB 100 million Yuan for the first time, a one-time reward of RMB 3 million Yuan will be given. For integrated circuit manufacturing, testing, and material enterprises with annual sales revenue exceeding RMB 1 billion Yuan for the first time, a one-time reward of RMB 5 million Yuan will be given. For design enterprises that purchase or rent electronic design automation (EDA) design tool software or intellectual property (IP) to carry out chip research and development, a maximum of RMB 1 million Yuan will be given at 30% of the purchase or rental fee.</p>	Eligible projects	<p><i>Notice of the General Office of the Tianjin Municipal People’s Government on Issuing Several Policy Measures to Promote the High Quality Development of the Manufacturing Industry in Tianjin (JZBG [2023] No. 4)</i></p>
Light industry	10	<p>Support the development of light industry. For benchmark enterprises characterized by increasing variety, improving quality, and creating brands, each enterprise will be given a one-time reward of up to RMB 2 million Yuan. A one-time reward of up to RMB 100,000 Yuan will be given to national and municipal craft and art master studios that meet the relevant recognition conditions for promoting the development of the craft and art industry.</p>	Relevant qualified enterprises

Tax refund, tax reduction, and fee reduction	7	<p>Continuously optimize the development environment of enterprises. Deepen the special rectification of illegal fees charged, and effectively reduce the burden on market entities. Continuously carry out special actions to prevent and resolve outstanding payments to small and medium-sized enterprises, establish a supervision system, and incorporate the implementation of work into annual performance evaluations. Optimize the development environment for small and medium-sized enterprises, cooperate with third-party assessments of the development environment for small and medium-sized enterprises, and improve service efficiency and level.</p>	Related eligible enterprises	<p><i>Notice of the Municipal Bureau of Industry and Information Technology, the Municipal Development and Reform Commission, and the Municipal State-owned Assets Supervision and Administration Commission on the Issuance of Several Measures for Tianjin to Consolidate the Revitalization and Boost the Industrial Economy</i> (JGXLYX [2022] No. 1)</p>
	8	<p>For VAT small-scale taxpayers, small low-profit enterprises, and individual businesses, a 50% reduction in resource tax (excluding water resource tax), urban maintenance and construction tax, real estate tax, urban land use tax, stamp tax (excluding securities transaction stamp tax), cultivated land occupation tax and education surcharges, and local education surcharges will be levied. The implementation period is until December 31, 2024.</p>		<p><i>33 Policy Measures for Promoting a Good Start of Economic Operation in the First Quarter and Overall Improvement throughout the Year in Tianjin</i></p>

Support Type	No.	Key Policy Points	Applicable Subject	Basis
Tax refund and reduction	9	From January 1, 2022 to December 31, 2024, resource tax (excluding water resource tax), urban maintenance and construction tax, property tax, urban land use tax, stamp tax (excluding stamp tax on securities transactions), cultivated land occupation tax, education surcharges and local education surcharges will be levied at a reduced rate of 50% for small-scale VAT taxpayers, small low-profit enterprises and individual businesses in Tianjin.	Related eligible enterprises	<i>Notice of Tianjin Development and Reform Commission and other departments on Printing and Distributing Several Measures to Promote the Recovery and Development of Difficult Industries in the Service Industry (JFGCJ [2022] No. 141)</i>
Tax support	10	Qualified venture capital enterprises and angel investors who have directly invested in start-up technical enterprises through equity investment for at least 2 years can deduct their taxable income at 70% of the investment amount, with the execution period ending on December 31, 2023.		Listed companies
	11	Continue to implement two preferential policies of the separate taxation of the personal income tax and equity incentives for listed companies in the Shanghai-Hong Kong and Shenzhen-Hong Kong stock market trading interconnection mechanism and mutual recognition of funds between China mainland and Hong Kong, with the implementation period ending on December 31, 2023.		

Support Type	No.	Key Policy Points	Applicable Subject	Basis
Reduced social security burden of enterprises	12	After the expiration of the phased deferred social insurance policy, enterprises can be allowed to pay the deferred social insurance premiums by installment or month by month before the end of 2023. No late fees will be charged during the supplementary payment period.	Related eligible enterprises	<i>Circular of the General Office of the Ministry of Human Resources and Social Security, the General Office of the National Development and Reform Commission, the General Office of the Ministry of Finance, and the General Office of the State Administration of Taxation on Further Improving the Implementation of the Policy of Staged Deferred Payment of Social Insurance Premiums (RSTF [2022] No. 50)</i>
Tiered pricing for electricity	13	Implement tiered electricity prices for energy intensive industries. According to national regulations, there will be no price increase for electricity used by stock enterprises with energy efficiency up to the benchmark level and enterprises under construction and planned to build with energy efficiency up to the benchmark level. For those failing to reach the benchmark level, a tiered electricity price will be implemented according to the gap in energy efficiency. The price increase is specifically used to support enterprises' technological transformation of energy conservation, pollution reduction and carbon reduction.		<i>Notice on Printing and Distributing the Action Plan of Tianjin for Promoting the Steady Growth of Industrial Economy (JFGGY [2022] No. 145)</i>
Enterprise financing	14	Further expand cross-border financing channels for enterprises, allow Tianjin Municipal Bureau to carry out pilot projects to facilitate cross-border financing for high-tech and “professional, refined, specialized, and innovative” enterprises, and allow eligible related enterprises to independently borrow foreign debt within a certain amount.	High-tech and “professional, refined, specialized, and innovative” enterprises	<i>Notice of the State Administration of Foreign Exchange on Supporting High-tech and “Professional, Refined, Specialized and Innovative” Enterprises to Carry out Cross-border Financing Facilitation Pilot (HF [2022] No. 16)</i>

Support Type	No.	Key Policy Points	Applicable Subject	Basis
Intellectual property financing	15	Explore and improve intellectual property financing mechanisms such as intellectual property pledge financing, explore intellectual property pledge financing surety insurance, and promote the development of technology insurance, patent insurance and related reinsurance businesses.	Enterprises with intellectual property rights	<i>Notice of the Ministry of Commerce on Issuing the Overall Plan for Expanding the Opening up of the Service Industry in Tianjin</i> (SZF [2021] No. 62)
	16	Explore the establishment of a multi-party intellectual property financing risk sharing model. Actively promote the development of a new model of combined pledge loans for intellectual property, equity, and related physical assets.	Financial services institutions	
Green financing	17	Actively develop carbon spot trading and environmental equity financing, develop green financing tools, and support eligible banks and enterprises to issue green bond overseas. Support eligible non-financial enterprise groups to establish financial holding companies in Tianjin. Support the legal establishment of scientific and technological achievements transfer and transformation funds, technology financing leasing companies, etc., and support banks in establishing technology branches to explore personalized financial services suitable for technology-based enterprises within the scope allowed by policies. Carry out supervision of financial technology innovation. Support financial enterprises in conducting pilot projects for the bulk transfer of non-performing assets in personal consumption loans.	Banks and financial enterprises	
Financing guarantee	18	Implement the policy of fees reduction, rewards, and subsidies for financing guarantee business for small and micro enterprises, guide guarantee institutions to expand the scale of financing guarantee business for small and micro enterprises in the real economy field, and reduce financing guarantee costs.	Small and micro businesses	<i>Notice of the Municipal Bureau of Industry and Information Technology, the Municipal Development and Reform Commission, and the Municipal State-owned Assets Supervision and Administration Commission on the Issuance of Several Measures for Tianjin to Consolidate the Revitalization and Boost the Industrial Economy</i> (JGXLYX [2022] No. 1)

Support Type	No.	Key Policy Points	Applicable Subject	Basis
Financial credit	19	Strengthen the cultivation of “professionalism, refinement, specialization, and novelty”. Deeply explore a number of small and medium-sized enterprises with good growth and great development potential that are “specialized, refined, special and new”. Give full subsidies to the national professional, refined, specialized, and new “little giant” enterprises that enter the Tianjin Binhai OTC market for listing and exhibition. Give the municipal “professional, refined, specialized, and new” small and medium-sized enterprises and “professional, refined, specialized, and new” seed enterprises in the library the financial discount subsidy of no more than RMB 500,000 Yuan and RMB 100,000 Yuan respectively.	“Professional, refined, specialized, and new” enterprises	<i>Action Plan of Tianjin for Promoting the Steady Growth of Industrial Economy</i> (JFGGY [2022] No. 145)
	20	Increase financial support. Guide banking and financial institutions to develop special credit plans for the manufacturing field, and increase the scale and proportion of manufacturing loans. Establish a high-quality development investment fund for the manufacturing industry led by the government, and rely on the Haihe industrial fund to carry out equity investment in key education projects. The investment income is recycled for manufacturing investment.	Manufacturing field	<i>Notice of the General Office of the Tianjin Municipal People’s Government on Issuing Several Policy Measures to Promote the High Quality Development of the Manufacturing Industry in Tianjin</i> (JZBG [2023] No. 4)
Data elements	21	Strengthen data element support. For data projects that directly drive the development of the manufacturing industry, a maximum support of RMB 2 million Yuan will be given based on 20% of the actual investment amount. Strengthen data security protection and guide manufacturing enterprises to build a data security system.	Manufacturing enterprises	
Reduced burden of corporate social security	22	According to the national deployment, the policy of gradually reducing the unemployment insurance premium rate to 1% will be implemented, with both employer and employee contribution rates of 0.5%, so as to reduce the cost of employer unemployment insurance payment. For eligible enterprises, a one-time employment subsidy will be granted, with the implementation period ending on December 31, 2023.	Eligible enterprises	<i>33 Policy Measures for Promoting a Good Start of Economic Operation in the First Quarter and Overall Improvement throughout the Year in Tianjin</i>

Support Type	No.	Key Policy Points	Applicable Subject	Basis
Asset optimization and integration	23	<p>Encourage enterprises to fully tap the cash flow value of existing assets through asset securitization (ABS) and other means for eligible assets, and actively graft financial means to realize securitization. Under the premise of complying with laws and regulations such as antitrust, encourage leading enterprises in the industry to strengthen the optimization and integration of existing assets through mergers and acquisitions, property transfer, and other means, so as to improve asset quality and scale efficiency.</p>	Relevant eligible enterprises	<p><i>Notice of the General Office of the Tianjin Municipal People's Government on Printing and Distributing Several Measures for Further Revitalizing Existing Assets and Expanding Effective Investment in Tianjin (JZBF [2022] No. 52)</i></p>
Investment incentives	24	<p>For projects with newly introduced domestic and foreign capital actually paid in amount of RMB 100 million Yuan or more, and with an annual actual fixed assets investment of RMB 50 million Yuan or more, a certain proportion of fixed assets investment will be awarded (except for residential real estate projects).</p> <p>The newly added actual investment amount refers to the funds introduced by independent legal entities or natural persons from outside Tianjin to invest in new projects in Tianjin or to construct new projects on the basis of existing projects. The newly established projects do not include residential real estate projects, and the introduced investment funds do not include national appropriations, policy funds, and subsidy funds.</p> <p>According to the actual situation and the industry differentiation and stepwise reward standards, each district can reward the investment enterprises with no less than 0.5% of the fixed assets investment, and the maximum reward is no more than RMB 10 million Yuan.</p>		<p><i>Notice of the Municipal Cooperation and Exchange Office and the Municipal Bureau of Commerce on Issuing Guiding Opinions on the Implementation of Rewards for Investment Promotion Projects (JHGL [2023] No. 15)</i></p>

Support Type	No.	Key Policy Points	Applicable Subject	Basis
Listing of enterprises	25	The target of special fund support is the qualified enterprise in Tianjin whose registered place is outside the Binhai New Area, including key cultivated enterprise listed in the enterprise resource pool that has been identified as eligible; enterprise in Tianjin that has IPO and listed on the Shanghai Stock Exchange, Shenzhen Stock Exchange, Hong Kong Stock Exchange and other eligible major domestic and overseas securities trading venues; listed company that has moved to Tianjin for development, and overseas listed company that has returned to A-shares and is registered in Tianjin.	Qualified local enterprises outside Binhai New Area	<p><i>Notice of the Municipal Bureau of Finance and the Municipal Financial Bureau on Printing and Distributing the Measures of Tianjin Municipality for the Management of Special Funds for Supporting the Listing of Enterprises (JCJ [2020] No. 64)</i></p>
	26	The municipal finance shall support 50% of the listing fees paid by the pool enterprises to the contracted securities companies, accounting firms, and law firms, with a maximum of RMB 1 million Yuan for each enterprise.	Warehousing enterprises in the resource pool of listed enterprises	
	27	For the loan guarantee fees and loan interest incurred by the pool enterprises after cultivation, the municipal finance provides support according to the proportion of 50% for up to 2 years for each enterprise and the total amount can be up to RMB 3 million Yuan.	Warehousing enterprises in the resource pool of listed enterprises	
	28	For enterprises that are listed on the Tianjin Binhai Counter Trading Market and obtain financing through the Tianjin Binhai Counter Trading Market Platform within one year after the listing, the municipal finance provides a one-off subsidy of RMB 100,000 Yuan after the financing is successfully received.	Qualified related enterprises	
	29	For enterprises that are successfully listed on the basic level of the National Equities Exchange and Quotations (hereinafter referred to as NEEQ), the municipal finance provides a one-time subsidy of RMB 1 million Yuan; for enterprises that have successfully listed on the innovation layer of the NEEQ, the municipal finance provides a one-time subsidy of RMB 1.2 million Yuan; for enterprises that have successfully transferred to the innovation layer after the cultivation at the basic level, the municipal finance grants a one-time subsidy of RMB 200,000 Yuan after the successful transfer; and if a listed company at the innovation level transfers to the select level to publicly issue and list shares, the same supporting standards as the company's listing on the Shanghai Stock Exchange and Shenzhen Stock Exchange shall be implemented.	Enterprises listed on the New Third Board	

Support Type	No.	Key Policy Points	Applicable Subject	Basis
Listing of enterprises	30	<p>(1) For enterprises applying for listing guidance at the Tianjin Securities Regulatory Bureau, the municipal government will reward them with a one-time reward of RMB 1 million Yuan.</p> <p>(2) For enterprises whose listing application materials have been officially accepted by authorized institutions such as national stock exchanges, the municipal government will award a one-time reward of RMB 2 million Yuan.</p> <p>(3) For companies that have successfully gone public, the municipal government will reward them with a one-time reward of RMB 2 million Yuan. Among them, for enterprises listed on the Shanghai Stock Exchange STAR Market and the SZSE ChiNext, the one-time reward of the municipal finance was increased to RMB 3 million Yuan, so as to strengthen the support for “hard technology” and “three innovations (innovation, creation, and creativity) and four news (new technologies, industries, formats, and models)” enterprises.</p> <p>(4) For enterprises directly listed on major overseas stock exchanges or listed through a red chip structure, if their registered address or main domestic office is in Tianjin, the municipal government will award a one-time reward of RMB 5 million Yuan.</p>	Listed enterprises	<p><i>Notice of the Municipal Financial Bureau and the Municipal Finance Bureau on Accelerating the Promotion of Enterprise Listing and Improving the Quality of Listed Companies (JJGF [2023] No. 1)</i></p>
	31	<p>Support qualified foreign-invested enterprises to raise funds through listing on the Main Board, the STAR Market, the SZSE ChiNext, and the Beijing Stock Exchange, listing on the basic and innovation layers of the New Three Board, and issuing corporate credit bonds.</p>	Related eligible enterprises	<p><i>Notice of the National Development and Reform Commission and Other Departments on the Issuance of Several Policy Measures for Expanding Quantity, Stabilizing Stock, and Improving Quality of Foreign Investment with a Focus on the Manufacturing Industry (FGWZ [2022] No. 1586)</i></p>

Support Type	No.	Key Policy Points	Applicable Subject	Basis
Listing of enterprises	32	The municipal finance provides a lump-sum subsidy of RMB 1 million Yuan to the pool enterprises whose listing application materials have been formally accepted by the competent authority.	Warehousing enterprises in the resource pool of listed enterprises	<i>Notice of the Municipal Bureau of Finance and the Municipal Financial Bureau on Printing and Distributing the Measures of Tianjin Municipality for the Management of Special Funds for Supporting the Listing of Enterprises</i> (JCJ [2020] No. 64)
	33	For listed companies that move to Tianjin for development, and overseas listed companies that return to A shares and are registered in Tianjin, the municipal finance provides a one-time subsidy of RMB 5 million Yuan.	Qualified related enterprises	
	34	If the total amount of municipal special fund subsidies for listing obtained by various methods is less than RMB 5 million Yuan, a one-off supplement will be provided upon successful listing.	Listed enterprises	
	35	In order to realize the fairness and justice of the special fund subsidies for listing, and to ensure the consistency of the supporting policies that the company obtains through various methods of listing, if the total amount of municipal special fund subsidies for listing obtained by various methods is less than RMB 5 million Yuan, a one-off supplement will be provided upon successful listing. The special subsidy funds obtained after the successful listing shall be used to reward senior management and meritorious personnel who have made special contributions to the listing of the company.	Qualified senior managers and meritorious personnel	
	36	Support eligible foreign-invested enterprises to be listed domestically. Support the use of the bond market to expand direct financing channels, and guide financial institutions with underwriting qualifications to serve related foreign-invested enterprises in bond issuance and financing. Organize to apply for international organizations' and foreign governments' preferential loan funds with a long application period, low interest rate, and high added value.	Qualified foreign-invested enterprises	<i>Notice of the Municipal Development and Reform Commission and Other Departments on the Issuance of the Specific Measures for Expanding Quantity, Stabilizing Stock, and Improving Quality of Foreign Investment with a Focus on the Manufacturing Industry in Tianjin</i> (JFGWZ [2023] No. 7)

Support Type	No.	Key Policy Points	Applicable Subject	Basis
Cross-border RMB	37	Optimize the cross-border RMB centralized collection and payment arrangements under the current account of multinational enterprise groups. The domestic member companies designated by the multinational enterprise group as the host company can open RMB bank settlement accounts in different places according to actual needs to handle the cross-border RMB collection and payment business under the current account.	Multinational enterprise groups	<i>Notice of the People's Bank of China, the Development and Reform Commission, the Ministry of Commerce, the State-owned Assets Supervision and Administration Commission, the China Banking and Insurance Regulatory Commission and the State Administration of Foreign Exchange on Further Optimizing the Cross-border RMB Policy and Supporting the Stabilization of Foreign Trade and Foreign Investment (YF [2020] No. 330)</i>
	38	Relax restrictions on the use of RMB income from certain capital projects. The renminbi income from domestic institutional capital projects (including foreign direct investment capital, cross-border financing, and repatriation of funds raised from overseas listings) shall be used within the business scope approved by the relevant state departments when the following requirements are met: it shall not be directly or indirectly used for expenditures outside the scope of business operations or prohibited by national laws and regulations; unless otherwise specified, it shall not be directly or indirectly used for securities investment; except where there is a clear permission in the business scope, it shall not be used to issue loans to non-affiliated enterprises; and it shall not be used for the construction or purchase of non-self-use real estate (except for real estate enterprises).	Capital projects of domestic institutions	
	39	Facilitate the domestic reinvestment of foreign-invested enterprises. Non-investment foreign-invested enterprises may make domestic reinvestment with RMB capital in accordance with the law, provided that they comply with current regulations and the domestic investment projects are true and compliant. When foreign-invested enterprises use RMB income from capital projects to carry out domestic reinvestment, the invested enterprise does not need to open a special deposit account for RMB capital, and the use of funds must comply with the provisions of Article VIII of this <i>Notice</i> .	Foreign-funded enterprises	
	40	Cancel the special account management requirements related to foreign direct investment business. Foreign investors who use domestic renminbi profits for domestic reinvestment can directly transfer renminbi funds from the profit distribution company's account to the invested company or equity transferor's account without opening a special deposit account for renminbi reinvestment. Where foreign investors acquire domestic enterprises in RMB to establish foreign-invested enterprises or pay the consideration for equity transfer to Chinese shareholders of domestic foreign-invested enterprises in RMB, the relevant Chinese shareholders do not need to open a special deposit account for mergers and acquisitions in RMB or a special deposit account for equity transfer in RMB.	Foreign investors	

Support Type	No.	Key Policy Points	Applicable Subject	Basis
Cross-border RMB	41	<p>Optimize the management of overseas RMB borrowing business of domestic enterprises. Domestic enterprises can open multiple RMB special deposit accounts for one overseas RMB loan according to actual needs, or use the same RMB special deposit account for fund receipts and payments for multiple overseas RMB loans. In principle, the special RMB deposit account for overseas borrowing shall be opened at the bank in the place where the borrowing company is registered. If there is a real need, the borrowing company may open a special RMB deposit account in a different place. Banks other than the borrowing settlement bank can handle the repayment of principal and interest of overseas RMB loans for enterprises under the premise of ensuring authenticity. The borrowing and withdrawal currency of overseas RMB loans of enterprises and financial institutions must be consistent with the repayment currency, and the contracted currency may be inconsistent with the withdrawal currency and repayment currency according to actual needs.</p>	<p>Domestic enterprises engaged in overseas RMB loan business</p>	<p><i>Notice of the People's Bank of China, the Development and Reform Commission, the Ministry of Commerce, the State-owned Assets Supervision and Administration Commission, the China Banking and Insurance Regulatory Commission and the State Administration of Foreign Exchange on Further Optimizing the Cross-border RMB Policy and Supporting the Stabilization of Foreign Trade and Foreign Investment (YF [2020] No. 330)</i></p>
	42	<p>Simplify the management of the RMB overseas lending business of domestic enterprises. The prepayment of RMB overseas loans by domestic enterprises is no longer included in the balance of enterprises' overseas loans, and the currency conversion factor is adjusted to 0.5. The adjusted calculation formula for the corporate overseas loan balance is corporate overseas loan balance = \sum overseas loan balance in domestic and foreign currencies + \sum foreign currency overseas loan balance \times currency conversion factor.</p>	<p>Relevant eligible enterprises</p>	
	43	<p>Protect the smooth exchange of current account receipts and payments of foreign-funded enterprises in accordance with the law. For cross-border transactions that can be settled by foreign exchange in accordance with the law, foreign-funded enterprises can use RMB for settlement. Promote the facilitation of capital item income payment, and allow eligible enterprises to use capital item income such as capital, foreign debt, and overseas listed funds for domestic payments without providing proof of authenticity one by one in advance. Promote the facilitation of foreign debt registration and management. Explore and implement measures to facilitate the purchase of foreign exchange for foreign employees' remuneration.</p>	<p>Foreign-funded enterprises</p>	

Support Type	No.	Key Policy Points	Applicable Subject	Basis
Cross-border RMB	44	<p>Reduce the cost of cross-border use of funds. Remove restrictions on domestic equity investment in capital of non-investment foreign-invested enterprises, and encourage foreign-invested enterprise capital to be used for domestic equity investment in accordance with the law. Strictly implement the registration system for the issuance of foreign debt by enterprises, treat foreign-funded enterprises' applications for issuance of foreign debts equally, encourage and support qualified enterprises in Tianjin to apply for issuance of foreign debts and raise funds for investment and construction of domestic and foreign projects.</p>	Foreign-funded enterprises	<p><i>Notice of the People's Bank of China, the Development and Reform Commission, the Ministry of Commerce, the State-owned Assets Supervision and Administration Commission, the China Banking and Insurance Regulatory Commission and the State Administration of Foreign Exchange on Further Optimizing the Cross-border RMB Policy and Supporting the Stabilization of Foreign Trade and Foreign Investment (YF [2020] No. 330)</i></p>
	45	<p>Improve the facilitation level of cross-border RMB settlement for trade and investment of foreign-invested enterprises. Implement new measures to facilitate offshore international trade settlement. Simplify overseas financing procedures for non-financial foreign-invested enterprises. Support high-quality foreign-invested enterprises to independently borrow foreign debts. Facilitate the purchase and repayment of domestic foreign exchange loans.</p>		<p><i>Notice of the Municipal Development and Reform Commission and Other Departments on the Issuance of the Specific Measures for Expanding Quantity, Stabilizing Stock, and Improving Quality of Foreign Investment with a Focus on the Manufacturing Industry in Tianjin (JFGWZ [2023] No. 7)</i></p>

(II) Industrial Land

Support Type	No.	Key Policy Points	Applicable Subject	Basis
New industrial land	1	Industrial land can be supplied by means of legal maximum term transfer, flexible term transfer, long-term lease, combination of lease and transfer, lease before transfer, etc.	Industrial land projects conforming to the planning	<i>Notice of the General Office of Tianjin Municipal People's Government on Printing and Distributing the Administrative Provisions of Tianjin on Promoting the High-Quality Planning and Utilization of Industrial Land (JZBG [2022] No. 12)</i>
	2	The municipal and district planning and resource departments determine the base price of transfer of industrial land according to the land appraisal results and industrial policy requirements. Among them, the self-owned part of the general new industrial land recognized as undertaking the non-capital function relief of Beijing can be evaluated as the land used by the enterprise headquarters.		
	3	For the project land conforming to the national and municipal key development industries, the land transfer fee can be paid in installments for a maximum period of not more than two years and must be paid before the real estate registration.		
	4	For the sublease or transfer of industrial land, the lessee or transferee shall be an industrial enterprise recognized by the district government as eligible for industrial access.		

Support Type	No.	Key Policy Points	Applicable Subject	Basis
New industrial land	5	Promote the marketization of industrial land factors, strengthen the classified control of industrial land, and fully guarantee the demand for land for real economy and industrial development. Establish a differentiated land supply system, implement differentiated management on the land supply methods and years of different industrial enterprises, determine the floor area ratio, building density, green space ratio, etc. of industrial land as required, and support the composite use of industrial mixed land. Promote the flexible supply of industrial land and implement methods such as leasing, leasing before transfer, and flexible term transfer. Promote the transfer model of industrial “standard land”.	Related eligible enterprises	<i>Notice of the Municipal Bureau of Industry and Information Technology on Issuing the Industrial Layout Planning of Tianjin (2022-2035) (JGXGH [2022]) No. 4</i>
Intensive land use	6	For the allocated industrial land and logistics storage land, based on the premise that the original land use right holder remains unchanged, the original land supply mode can be maintained in the case of the mutual conversion or increase of floor area ratio, without paying the land transfer fee; and if there is a change in the original land user, the land supply method should be changed to transfer according to law, and a supplementary land transfer fee needs to be paid.	Eligible land	<i>Notice of the Municipal Planning and Resources Bureau on Issuing the Implementation Rules of Several Measures for Assisting Enterprise Bailout and Supporting the Development of Market Entities (JGZXF [2022] No. 113)</i>
	7	For the transferred industrial land and logistics storage land, in the case of conversion or increase of floor area ratio, a supplementary contract for land transfer shall be signed and the land transfer fee will not be paid; if the transferred industrial land and logistics storage land are converted into other commercial land, a supplementary land transfer contract shall be signed and the land transfer fee shall be paid; and if other commercial land that has been transferred is converted into industrial land or logistics storage land, a supplementary land transfer contract shall be signed, and the land transfer fee shall not be refunded.	Eligible land	

Support Type	No.	Key Policy Points	Applicable Subject	Basis
Intensive land use	8	<p>For land for foreign investment projects recognized as encouraged type by the state with intensive land use, full protection should be ensured. For key foreign investment projects that have signed investment agreements but have not yet been implemented, support intended land use enterprises to carry out planning work in advance to promote the implementation of land use indexes and other guarantee policies.</p>	Foreign investment projects	<p><i>Notice of the Municipal Development and Reform Commission and Other Departments on the Issuance of the Specific Measures for Expanding Quantity, Stabilizing Stock, and Improving Quality of Foreign Investment with a Focus on the Manufacturing Industry in Tianjin (JFGWZ [2023] No. 7)</i></p>

Support Type	No.	Key Policy Points	Applicable Subject	Basis
Land used for building	9	<p>The reserve construction land at the city and district levels should actively ensure the construction of key projects at the city level, and can be supplied through long-term leasing, leasing before transfer, combination of leasing and transfer, and flexible term. The people's government of the district where the project is located shall be responsible for implementing the land use indexes for supporting engineering of municipal key projects.</p>	Key projects	<p><i>Notice of the General Office of the Tianjin Municipal People's Government on Issuing the Administrative Measures for Key Projects in Tianjin (JZBG [2022] No. 14)</i></p>
	10	<p>Priority should be given to ensuring the use of sea, land, energy, environmental capacity indexes and other essential resources for key construction projects. Parallel approval is carried out for the processes of sea use review, land use approval, planning permission, construction permit, etc., so as to simplify the approval items, share the elements, optimize the process, and speed up the efficiency, form a collaborative work mode of sea use, planning, and land procedures in areas with historical problems of reclamation, and improve the efficiency of procedures for sea and land use projects. Coordinate the total energy consumption indicators of the whole city, prioritize ensuring the energy consumption of key construction projects, and support the energy consumption of key construction projects to be listed separately. Coordinate the whole city's environmental capacity indicators, guide relevant districts to deeply tap into the potential for pollutant reduction, and coordinate the adoption of regional paid adjustments, indicator exchanges, and advance payments to provide guarantees for the total amount indicators of key construction projects.</p>	Key construction projects	<p><i>Notice of the General Office of the Tianjin Municipal People's Government on Issuing the Implementation Plan for the High-Quality Development of the Petrochemical and Chemical Industry in Tianjin (JZBF [2023] No. 3)</i></p>

Support Type	No.	Key Policy Points	Applicable Subject	Basis
Industrial land	11	Strengthen the guarantee of land elements. Each region shall promote projects to follow the plan and promote land elements to follow the project. Based on local reality, further clarify key industries and fields in the manufacturing industry, guide land elements to allocate to projects with fast construction, good development, and high unit output, and ensure the reasonable demand for foreign investment projects in the manufacturing industry.	Foreign investment projects in the manufacturing industry	<i>Notice of the National Development and Reform Commission and Other Departments on the Issuance of Several Policy Measures for Expanding Quantity, Stabilizing Stock, and Improving Quality of Foreign Investment with a Focus on the Manufacturing Industry (FGWZ [2022] No. 1586)</i>
	12	Support the implementation and construction of major projects. Utilize the channel resources and industrial resource advantages of government guided funds such as Haihe Industrial Fund and Binhai Industrial Development Fund, as well as mother fund partners, to guide major petrochemical and chemical projects to land in Tianjin and drive the capital increase and capacity expansion of existing projects. For major petrochemical and chemical projects that have been identified as priority industries for development in Tianjin, with large investment amounts and intensive land use, the land transfer base price may be no less than 70% of the lowest price standard for industrial land corresponding to the land grade in the location, and also no less than the sum of the actual land acquisition cost, land preliminary development cost, and related expenses of the project.	Major projects	<i>Notice of the Municipal Development and Reform Commission on Issuing Several Policy Measures to Support the High-Quality Development of the Green Petrochemical Industry Chain (JFGGYG [2023] No. 2)</i>
	13	Improve the efficiency of industrial land use. Ordinary industrial land is allowed to be compatible with production services, living services, and administrative office facilities that do not exceed 15% of the land scale. Encourage industrial theme parks to build standard factories around major projects, key enterprises, and other fields.	Major projects and key enterprises	<i>Notice of the General Office of the Tianjin Municipal People's Government on Issuing Several Policy Measures to Promote the High-Quality Development of the Manufacturing Industry in Tianjin (JZBG [2023] No. 4)</i>

Support Type	No.	Key Policy Points	Applicable Subject	Basis
Industrial land	14	<p>Under the premise of basic equilibrium of land prices for the highest term converted by different supply methods, a clear price (rent) base is established. The price (rent) of industrial land shall not be lower than the cost price (rent) of industrial land. The cost price (rent) of industrial land can be calculated by sharing the land area or land price proportion of different uses within the area.</p> <p>(1) If long-term leasing is adopted and the rent is not adjusted during the lease period, the annual rent base can be determined at a rate of no less than 2% of the 50-year industrial land transfer evaluation price of the land; if the rent is adjusted, the initial annual rent base can be determined at 2% of the 50-year industrial land transfer evaluation price of the land; and the rent adjustment period shall not be less than 5 years, and the rent standards for future periods shall be determined based on the land evaluation price or land price index at that time, but the increase shall not exceed 10% of the previous period's rent.</p> <p>(2) For leasing before transfer, the rent standard for the lease term shall be adjusted and determined based on the ratio of the lease term to the maximum term. After the transfer, the paid rent is offset against the transfer price. The sum of lease terms shall not exceed the statutory maximum transfer period. Encourage the implementation of flexible terms during the transfer phase.</p> <p>(3) If the flexible term transfer is adopted, the base price of the transfer shall be determined according to the correction of term which should not be less than the ratio of the flexible term to the maximum term.</p> <p>For the land with the state-owned construction land use right, on the premise of conforming to the planning and not changing the use, if the land utilization rate and floor area ratio are increased, the land price will not be increased.</p>	Eligible enterprises	<p><i>Notice of the Ministry of Natural Resources on Improving Industrial Land Supply Policies to Support the Development of the Real Economy (ZRZF [2022] No. 201)</i></p>

Support Type	No.	Key Policy Points	Applicable Subject	Basis
Industrial land	15	For major petrochemical and chemical projects that have been identified as priority industries for development in Tianjin, with large investment amounts and intensive land use, the land transfer base price may be no less than 70% of the lowest price standard for industrial land corresponding to the land grade in the location, and also no less than the sum of the actual land acquisition cost, land preliminary development cost, and related expenses of the project.	Eligible enterprises	<i>Notice of the Municipal Development and Reform Commission on Issuing Several Policy Measures to Support the High-Quality Development of the Green Petrochemical Industry Chain</i> (JFGGYG [2023] No. 2)
	16	Support the implementation of “standard land” transfer for industrial land to be transferred in chemical industrial parks, accelerate regional evaluation, and improve land allocation efficiency. Allow the supply of industrial land through a combination of leasing and transfer, leasing before transfer, and flexible term to reduce the cost of enterprise land use. For projects such as technology incubation, inspection and testing, and pilot bases that comply with the management regulations for promoting high-quality planning and utilization of industrial land in Tianjin, the land can be managed as new industrial land. Encourage the mixed use of industrial land, revitalize the inefficient existing land, and on the premise of conforming to the planning and not changing the use, if the existing industrial land improves the land utilization rate and increases the floor area ratio, the land transfer price will not be paid.	Chemical industrial parks	
	17	The base price of the flexible term land transfer fee for industrial land in Tianjin shall be determined by multiplying the market evaluation price of the highest period of land transfer by the ratio of the flexible term transfer period to the highest transfer period. Unless otherwise stipulated by national policies, the base price for transfer shall not be lower than the minimum price standard set by the state.	Eligible enterprises	<i>Several Measures for Promoting Investment Promotion and Expanding Social Investment in Tianjin</i> (Provisional)

Support Type	No.	Key Policy Points	Applicable Subject	Basis
New industrial land	18	<p>Under the premise of complying with the requirements of national spatial planning and use control, within the industrial park, it is allowed to convert commercial service facility land into industrial land or logistics storage land according to industry access needs, which will be included in the regulatory plan for execution and directly processed during the planning and licensing stage. If the park management organization conducts a demonstration on the type and specific proportion of land to be converted and determined that the conversion result does not affect the park’s positioning and meets the requirements of infrastructure carrying capacity, safety, and environmental protection, it shall be implemented with the approval of the district people’s government.</p>	Industrial land projects that comply with the planning	<p><i>Notice of the General Office of the Tianjin Municipal People’s Government on Issuing the Management Regulations for Promoting High-Quality Planning and Utilization of Industrial Land in Tianjin (JZBG [2022] No. 12)</i></p>
Real estate	19	<p>Implement a phased land transfer support policy. For commercial real estate land newly transferred before December 31, 2023, 50% of the land transfer price shall be paid within one month after the land transfer contract is signed, and the remaining amount can be paid in installments according to the contract agreement, and the payment period shall not exceed one year.</p>	Real estate enterprises	<p><i>Notice of 7 Departments including the Municipal Housing and Urban Rural Development Commission on Further Improving Real Estate Regulation Policies and Promoting the Healthy Development of the Real Estate Industry (JZJFS [2022] No. 39)</i></p>

Support Type	No .	Key Policy Points	Applicable Subject	Basis
Policies for transition period of construction land	20	<p>The policy for transition period of construction land refers to that according to the provisions of the <i>Opinions on Land Use for Supporting the Development of New Industries and New Business Types and Promoting Mass Entrepreneurship and Innovative</i> (GTZG [2015] No. 5), the <i>Notice of the General Office of the Ministry of Natural Resources on Printing and Distributing the Guidelines for the Implementation of Industrial Land Policies (2019 Edition)</i> (NRZBF [2019] No. 31) and other documents, enterprises use existing real estate and land resources to develop national supported industries and industries and can enjoy the policy of not changing the land use subject and planning conditions within a certain period of time.</p>	Related eligible enterprises	<p><i>Notice of the Municipal Bureau of Planning and Resources on Further Clarifying the Handling Process of Policies for the Transition Period of New Industry and New Business Type Construction Land</i> (JGZLYF [2021] No. 259)</p>
	21	<p>The starting time of the policy for the transition period of construction land is calculated from the time when the planning and resource department issues the review opinions. If the national document specifies the policy period for the transition period, the period determined shall prevail; and if the policy period is not specified, it shall be limited to five years.</p>		
	22	<p>When the transition period of construction land expires (including those involving land transfer during the transition period) and the park management committee or the competent industry department has passed the supervision and assessment, it can be adjusted according to the new use and go through the relevant land use procedures in accordance with the fourth situation of Article 30 of the <i>Tianjin Urban and Rural Planning Regulations</i>, except for those explicitly stipulated by laws, regulations and administrative provisions, and except for that the provisions or agreements in the state-owned construction land allocation decision, transfer contract, lease contract, etc. provide that the land use right should be recovered and transferred again. If it conforms to the <i>Catalogue of Allocated Land</i>, land use procedures can be handled according to the method of allocation; and if it does not conform to this <i>Catalogue</i>, it can go through the land use formalities by agreement, sign the land transfer contract and pay the land price, and make up the land price according to the difference between the market evaluation land price of the approval time point, the new use and the newly agreed land use term and the original use and the remaining land use term, and agree on the land use term.</p>		

Support Type	No.	Key Policy Points	Applicable Subject	Basis
Sales of industrial plants	23	<p>This <i>Notice</i> is applicable to the sales and retransfer of newly built industrial plants (excluding projects that have undergone the first registration of real estate) within the scope of industrial parks approved by the State Council and the Municipal People’s Government and the Beijing-Tianjin-Hebei industrial transfer key undertaking platform of Tianjin (hereinafter collectively referred to as the industrial parks), which are used for industrial land and are constructed in accordance with the construction project design plan approved by the Planning and Resources Department and whose main structure has been capped.</p>	Related eligible enterprises	<p><i>Notice of the Municipal Commission of Housing and Urban-Rural Development on Supporting the Sales of Industrial Plants and Promoting the Development of High-end Industrial Clusters</i> (JZJF [2020] No. 3)</p>
	24	<p>Industrial plants can be sold by building, storey or set. In principle, the minimum sales unit construction area shall not be less than 500 square meters. For industrial plants that have obtained construction permits for construction projects before August 1, 2020, the minimum sales unit construction area shall not be less than 300 square meters.</p>		
	25	<p>The sales target of the industrial plant and the buyer of the re-transferred industrial plant shall be a legally registered enterprise and meet the requirements of the people’s government of the project area or the management committee of the industrial park for the industry category of the enterprise.</p>		

(III) Talent Support

Support Type	No.	Key Policy Points	Applicable Subject	Basis
Working convenience in China	1	<p>Improve the convenience of overseas talents working in China. Foreign team members of foreign-funded R&D centers can apply for a one-time work-related residence permit of no more than five years based on their unit certification letter and the <i>Foreigner Work Permit</i>. Their spouse, parents, children under the age of 18, their spouses' parents and other accompanying family members can apply for private affairs-related residence permits with the same period as foreign team members based on unit certification letters, kinship certificates, and medical examination certificates. The foreign high-level talents, foreigners with significant outstanding contributions, and those in special needs of the country can apply for permanent residence in China to the entry and exit management department of the public security organs upon recommendation from relevant national competent departments, provincial people's governments, or national key development area management departments; and foreign senior management and professional technical talents introduced and recommended by well-known domestic enterprises, high-tech enterprises, and innovative enterprises can apply for permanent residence, and the foreign spouses and underage children of the above-mentioned personnel can also apply together.</p> <p>Foreign personnel who require multiple temporary entries upon invitation from a foreign-funded R&D center can apply to the public security entry and exit management department for a multiple visa with a validity period of no more than 1 year and a stay period of no more than 180 days; foreign personnel invited or hired by foreign R&D centers, who come to China without a visa, may apply for port visas in accordance with regulations. For overseas high-end talents hired by foreign R&D centers, those who meet the conditions can apply for work permits through methods such as notification and commitment and acceptance of vacancies. For foreign senior management personnel appointed by the headquarters of the same multinational company, who change their work units across provinces, it is necessary to optimize the process of reapplying for work permits.</p>	Overseas talents	<p><i>Notice of Tianjin Municipal Bureau of Commerce and Tianjin Municipal Bureau of Science and Technology on Issuing the Implementation Measures for Further Encouraging Foreign Investment to Establish R&D Centers in Tianjin (JSWG [2023] No. 2)</i></p>

Support Type	No.	Key Policy Points	Applicable Subject	Basis
Overseas professional talents	2	<p>Encourage overseas talents to apply for professional titles. Talents from Hong Kong, Macao, and Taiwan regions engaged in professional and technical work in Tianjin, as well as foreign talents holding foreign work permits and permanent residence identity cards for foreigners, who are hired by foreign R&D centers, can participate in the professional title evaluation in Tianjin. For domestic and overseas high-level talents, urgently needed talents, and outstanding young talents introduced and cultivated by various enterprises in Tianjin, regardless of whether they have obtained professional titles or not, enterprises can directly apply for corresponding professional titles based on their performance level. For qualified overseas high-level international talents hired by foreign R&D centers who participate in the evaluation of senior professional titles, their foreign professional work experience, academic or professional technical contributions can be used as the basis for evaluation of senior professional and technical titles, and they are not limited by their tenure in China.</p>	Overseas talents	<p><i>Notice of Tianjin Municipal Bureau of Commerce and Tianjin Municipal Bureau of Science and Technology on Issuing the Implementation Measures for Further Encouraging Foreign Investment to Establish R&D Centers in Tianjin (JSWG [2023] No. 2)</i></p>
	3	<p>Strengthen overseas talent rewards and subsidies. Actively assist and coordinate the enrollment of foreign children in Tianjin Foreign Children's School for qualified overseas high-end talents and scarce talents hired by foreign R&D centers. Encourage foreign R&D centers to use international talent community apartments and related supporting facilities. Encourage each region to provide support in housing, children's education, spouse employment, medical security, and other aspects to qualified overseas high-end talents and scarce talents hired by foreign R&D centers within the scope of legal authority according to development needs; and encourage qualified leading talents and their teams from foreign R&D centers to apply for various levels of R&D projects.</p>		
	4	<p>Promote the facilitation of cross-border fund collection and payment for overseas talents. Support financial institutions to provide cross-border financial service convenience for overseas talents working in foreign R&D centers in accordance with regulations, such as purchase and payment of foreign exchange for salary income, and settlement of tuition fees for accompanying children. Guide banks to implement a system for handling special foreign exchange transactions related to personal current accounts, and ensure the demand for foreign exchange for overseas talents. Support banks to provide relevant cross-border financial services for foreign R&D centers.</p>		

Support Type	No.	Key Policy Points	Applicable Subject	Basis
Overseas professional talents	5	<p>Improve the convenience of overseas talents working in China. Allow foreign R&D centers to apply for a one-time work permit that does not exceed the term of the labor contract and a work residence permit that does not exceed 5 years for foreign team members on a team basis, providing convenience for overseas talents to reside in China for long-term and permanent purposes. For overseas high-end talents hired by foreign R&D centers, those who meet the conditions can apply for work permits through methods such as notification and commitment and acceptance of vacancies. For foreign senior management personnel appointed by the headquarters of the same multinational company, who change their work units across provinces, it is necessary to optimize the process of changing or reapplying for work permits.</p>	Overseas talents	<p><i>Notice of the General Office of the State Council on Forwarding Several Measures of the Ministry of Commerce and the Ministry of Science and Technology for Further Encouraging Foreign Investment in Establishing R&D Centers (GBH [2023] No. 7)</i></p>
	6	<p>Encourage overseas talents to apply for professional titles. Establish a green channel for overseas high-end talents and scarce talents hired by foreign R&D centers to participate in professional title evaluation, relax restrictions on qualifications, years of service, etc., and allow them to use their overseas work experience, performance achievements, etc. as evaluation criteria. Those who meet the conditions can directly apply for senior professional titles.</p>		
	7	<p>Strengthen overseas talent rewards and subsidies. Encourage all regions to provide support in housing, children's education, spouse employment, medical security, and other aspects to qualified overseas high-end talents and scarce talents hired by foreign R&D centers within the scope of legal authority according to development needs; and provide funding for leading talents and their teams to engage in key research and development projects.</p>		
	8	<p>Promote the facilitation of cross-border fund collection and payment for overseas talents. Support financial institutions to facilitate the handling of genuine and compliant cross-border fund collection and payment services for overseas talents working in foreign R&D centers in accordance with regulations.</p>		

Support Type	No.	Key Policy Points	Applicable Subject	Basis
Convenience of overseas talents working and living in China	9	<p>Assist in improving the convenience of international exchanges. Foreigners who enter China with valid visas and engage in activities such as investment, entrepreneurship, scientific research, and trade can apply for replacement or issuance of multiple visa certificates to enjoy convenience for entry and exit. Foreigners who are invited to enter Tianjin for urgent business, engineering rescue, or other urgent entry needs can obtain port visas by holding an invitation letter issued by relevant departments or reception units. Foreigners who meet the visa free conditions for 144 hour transit between Beijing, Tianjin, and Hebei and enter the designated ports of Beijing, Tianjin, and Hebei can be exempted from visa application to stay within the administrative area of Tianjin for 144 hours.</p>	Foreign talents	<p><i>Notice of Tianjin Public Security Bureau on Issuing a Package of Measures for Ensuring High-Quality Development and Achieving Results (JGT [2023] No. 9)</i></p>
	10	<p>Facilitate the development of foreign talents in Tianjin. For high-level foreign talents who participate in the construction of the “Belt and Road” and the key projects of Tianjin, such as the “Ten Industrial Talents Innovation and Entrepreneurship Alliance”, priority will be given to them for permanent residence procedures. Foreign high-level talents and their families who have been recognized by Tianjin’s talent management department can apply for a long-term residence permit of 2 to 5 years. It is necessary to realize the “immediate availability” of foreign high-level talent visa documents and provide on-site certification services for urgent and necessary situations.</p>		

Support Type	No.	Key Policy Points	Applicable Subject	Basis
Convenience of overseas talents working and living in China	11	Facilitate foreign staff to come to Tianjin. Support foreign personnel in major foreign investment projects to enter China by chartered flights. Discuss each case on a case by case basis, invite and manage them in a centralized manner. If an ordinary enterprise urgently needs to invite foreign personnel to Tianjin, it can apply to the foreign affairs department of the jurisdiction, which will review within 3 working days and report to the municipal foreign affairs office, and the municipal foreign affairs office will review and approve within 1 working day. Make full and good use of the “shortcut” to facilitate the arrangement.	Foreign staff	<i>Notice on Printing and Distributing the Action Plan of Tianjin for Promoting the Steady Growth of Industrial Economy (JFGGY [2022] No. 145)</i>
	12	High-level foreign talents and their families, foreign members of innovation and entrepreneurship teams, and foreign technical talents selected and recruited by companies can directly apply for permanent residence in China after being recommended by relevant authorities.	Foreign high-level talents and their families, foreign technical talents	<i>Notice of Tianjin Municipal People's Government on Updated Version of Several Measures to Promote the High-quality Development of Innovation and Entrepreneurship (JZF [2019] No. 16)</i>
	13	<p>In order to avoid the worries of foreign high-end talents coming to work in Tianjin, the Municipal Science and Technology Bureau provides foreign high-end talents with special service support such as children’s enrollment and commercial medical insurance. High-level talents newly introduced by Tianjin and selected into the national or provincial and ministerial-level talent programs, their direct foreign children attending international schools can enjoy rewards and subsidies of up to RMB 150,000 Yuan per year for 3 consecutive years.</p> <p>Foreign experts selected into the relevant talent programs of China or Tianjin can enjoy a commercial medical insurance subsidy of up to RMB 20,000 Yuan.</p>	Foreign high-end talents and their children	<i>Notice of the Municipal Science and Technology Bureau on Printing and Distributing Measures for Seizing Opportunities and Strengthening the Introduction of Foreign High-end Talents (JKYZ [2020] No. 65)</i>

Support Type	No.	Key Policy Points	Applicable Subject	Basis
High-end talents	14	Promote the city-industry integration development, increase production and living facilities, and allow the construction of talent housing, affordable housing, and necessary living facilities in areas beyond the control line of industrial concentrated development to meet the needs of enterprises for employment and housing.	Eligible talents	<i>Notice of the Municipal Bureau of Industry and Information Technology on Printing and Distributing the Industrial Layout Planning of Tianjin (2022-2035) (JGXGH [2022] No. 4)</i>
	15	Implement more open and effective policy measures, focus on the development of manufacturing industry and high-quality development of the industrial chain, and explore the formulation of local recognition standards for foreign “high-grade, precision, advanced and scarce” talents. In the pilot area of the free trade pilot zone, for fields that do not directly involve public safety and the health of the people, with controllable risks, international talents holding widely recognized international professional qualification certificates in relevant fields are allowed to work in the free trade pilot zone after their ability level is recognized or recorded by relevant departments, and their professional behavior is supervised strictly. Implement measures to facilitate the work of foreign talents, and do a good job in the introduction, management, and service of foreign talents.	Foreign talents	<i>Notice of the General Office of the Tianjin Municipal People's Government on Printing and Distributing Several Measures for Continuously Optimizing the Business Environment of the Tianjin Based on State Council Business Environment Innovation Pilot Work (JZBG [2022] No. 5)</i>
	16	Strengthen the supply of manufacturing talents. Encourage private enterprises to independently carry out skill level recognition. Improve the evaluation of talent for technology transfer and transformation, and outstanding talents can directly apply for senior professional titles without being limited by educational background, qualifications, or lower level professional titles.	Manufacturing talents	<i>Notice of the General Office of the Tianjin Municipal People's Government on Issuing Several Policy Measures to Promote the High Quality Development of the Manufacturing Industry in Tianjin (JZBG [2023] No. 4)</i>

Support Type	No.	Key Policy Points	Applicable Subject	Basis
High-end talents	17	For enterprises newly incorporated into the statistical declaration of large-scale enterprises and stock enterprises, which have completed industrial fixed assets investment of RMB 50 million Yuan or more in one year, or fixed assets investment of RMB 30 million Yuan or more in one year, or retail sales of social consumer goods of RMB 50 million Yuan or more in one year, or wholesale and retail sales of RMB 500 million Yuan or more in one year, or contributed foreign trade imports and exports of USD 100 million or more annually for three consecutive years, the senior management personnel recognized by the people's government of the area where the enterprise is located can directly settle in Tianjin.	Senior management personnel	<i>Several Measures for Promoting Investment Promotion and Expanding Social Investment in Tianjin (Provisional)</i>
	18	Comprehensively consider the driving role of the enterprise in economic development (including economic contribution, industrial output value, main business income, profit level, fixed assets investment, employment promotion, etc.). High-end talents (including the chairman, general manager, deputy general manager, chief financial officer, chief technical officer, core technical talents, etc.) who have made outstanding contributions will be rewarded according to certain standards after being recognized by the people's government of the area where the enterprise is located, with a maximum annual reward of RMB 500,000 Yuan for each person and a maximum of 15 employees per enterprise. The municipal finance will provide financial support at a rate of 30%, which will be processed through year-end settlement. Coordinate high-quality medical resources and ensure that high-end talents can enjoy convenient medical services in designated medical institutions according to regulations within a certain period of time. Ensure that children of high-end talents receive preschool education and compulsory education in Tianjin.	High-end talents	
	19	Increase efforts to attract high-level management talents, high-level professional talents, and high-quality skilled talents, and strengthen the supply of manufacturing talents. Encourage key enterprises and universities to establish industry-education-integration research institutes. Support enterprises to establish training centers and establish postdoctoral research workstations, and collaborate with universities to carry out new apprenticeship training. Optimize talent services in the manufacturing industry, target urgently needed talents in enterprises, and strengthen guarantees for job title application, children's education, household registration, and medical care.	Eligible talents	<i>Notice of the Municipal Bureau of Industry and Information Technology on Printing and Distributing the Industrial Layout Planning of Tianjin (2022-2035) (JGXGH [2022] No. 4)</i>

Chapter VI

Green

Development

06

(I) Green Electricity

Support Type	No.	Key Policy Points	Applicable Subject	Basis
Green electricity	1	<p><i>Tianjin Green Electricity Trading Work Plan</i></p> 	Relevant eligible enterprises	<p><i>Notice of the Municipal Bureau of Industry and Information Technology on Issuing the Tianjin Green Electricity Trading Work Plan (JGXDL [2022] No. 17)</i></p>
	2	<p>Accelerate the green and low-carbon upgrading of foreign investment, enhance the competitiveness of products in the international market, support foreign investment enterprises to participate in Tianjin's carbon peak and carbon neutrality strategy, guide and serve a group of key foreign investment enterprises in the manufacturing industry to improve their low-carbon construction implementation plans, and help them to actively strive to be selected as national green and low-carbon typical cases. Support foreign-invested enterprises to develop green products, build green factories, and create green supply chains. Expand the scale of green electricity, encourage enterprises to actively develop new energy projects such as distributed photovoltaics, and meet the green energy needs of foreign-invested enterprises in the manufacturing industry.</p>	Foreign-invested enterprise	<p><i>Notice of the Municipal Development and Reform Commission and Other Departments on the Issuance of the Specific Measures for Tianjin to Promote Investment through the Increment Expansion, Stable Stock, and Quality Improvement with a Focus on the Manufacturing Industry (JFGWZ [2023] No. 7)</i></p>
	3	<p>Strengthen international cooperation in green power certification, advocate the establishment of an international green power certification system, and actively guide and participate in the research and development of international standards for green power certificate issuance, measurement, and trading. Promote the establishment of international cooperation platforms for clean and low-carbon energy technology innovation, such as the China-Europe Energy Technology Innovation Cooperation Platform. Support multinational enterprises in establishing joint R&D centers for clean and low-carbon energy technology in China, and promote joint research, innovation, and demonstration applications in clean, low-carbon, decarbonized, and carbon-free fields.</p>	Relevant eligible enterprises	<p><i>Opinions of the National Development and Reform Commission and the National Energy Administration on Improving the System, Mechanism, and Policy Measures for Green and Low-Carbon Energy Transformation (FGNY [2022] No. 206)</i></p>

(II) Green and Low-carbon Development

Support Type	No.	Key Policy Points	Applicable Subject	Basis
Carbon peak and carbon neutrality	1	<p><i>Tianjin Carbon Peak Implementation Plan</i></p> 	Relevant eligible enterprises	<p><i>Notice of the Tianjin Municipal People's Government on Issuing the Implementation Plan for Carbon Peak in Tianjin (JZF [2022] No. 18)</i></p>
	2	<p><i>Implementation Plan for Carbon Peak in the Industrial Sector</i></p> 		<p><i>Notice of the Ministry of Industry and Information Technology, the National Development and Reform Commission, and the Ministry of Ecology and Environment on Issuing the Implementation Plan for Carbon Peak in the Industrial Field (Ministry of Industry and Information Technology Joint Section (GXBLJ [2022] No. 88)</i></p>
	3	<p><i>Implementation Plan for Carbon Peak in the Industrial Sector in Tianjin</i></p> 		<p><i>Notice of Tianjin Municipal Bureau of Industry and Information Technology, the Municipal Development and Reform Commission, and the Municipal Ecological Environment Bureau on Printing and Distributing the Implementation Plan for Carbon Peak in the Industrial Field of Tianjin (JGXJN [2022] No. 5)</i></p>

Support Type	No.	Key Policy Points	Applicable Subject	Basis
Carbon peak and carbon neutrality	4	<p>Implement tax policies such as environmental protection tax, resource tax, consumption tax, vehicle and vessel tax, vehicle purchase tax, value-added tax, and corporate income tax; implement tax incentives such as energy conservation, water conservation, and comprehensive resource utilization, research and support tax policies related to carbon reduction, and better play the role of taxation in promoting green and low-carbon development of market entities. Optimize the tariff structure in accordance with the requirements of accelerating green and low-carbon development and continuously improving environmental quality.</p>	Relevant eligible enterprises	<p><i>Notice of the Ministry of Finance on Issuing the Opinions on Financial Support for Carbon Peak and Carbon Neutrality Work (CZH [2022] No. 53)</i></p>
	5	<p>Accelerate the green and low-carbon upgrading of foreign investment, enhance the competitiveness of products in the international market, support foreign investment enterprises to participate in Tianjin's carbon peak and carbon neutrality strategy, guide and serve a group of key foreign investment enterprises in the manufacturing industry to improve their low-carbon construction implementation plans, and help them to actively strive to be selected as national green and low-carbon typical cases. Support foreign-invested enterprises to develop green products, build green factories, and create green supply chains. Expand the scale of green electricity, encourage enterprises to actively develop new energy projects such as distributed photovoltaics, and meet the green energy needs of foreign-invested enterprises in the manufacturing industry.</p>	Foreign-funded enterprises	<p><i>Notice of the Municipal Development and Reform Commission and Other Departments on the Issuance of the Specific Measures for Tianjin to Promote Investment through the Increment Expansion, Stable Stock, and Quality Improvement with a Focus on the Manufacturing Industry (JFGWZ [2023] No. 7)</i></p>

Support Type	No.	Key Policy Points	Applicable Subject	Basis
Green and low-carbon development	6	Support foreign-invested enterprises to participate equally in the formulation and revision of relevant standards in the green and low-carbon field, and scientifically determine the requirements for energy efficiency and energy consumption quotas for national key products. Support foreign-invested enterprises to participate in the research and development, promotion and application of green and low-carbon technologies, and encourage them to become “leaders” in energy efficiency, water efficiency, etc.	Foreign-funded enterprises	<i>Notice of the National Development and Reform Commission and Other Departments on the Issuance of Several Policy Measures for Expanding Quantity, Stabilizing Stock, and Improving Quality of Foreign Investment with a Focus on the Manufacturing Industry</i> (FGWZ [2022] No. 1586)
	7	Support foreign investment in the research and application of green and low-carbon technologies, promote advanced energy-saving and emission reduction technologies and effective experience and practices of foreign enterprises, drive technological transformation and upgrading of park enterprises, and achieve green and low-carbon development.		<i>Announcement on the Implementation of the Catalogue of Industries Encouraging Foreign Investment (2022 Edition)</i> (Announcement No. 122 of the General Administration of Customs in 2022)
	8	Encourage enterprises to adopt clean production technology and equipment for transformation and improvement, and promote the reduction of industrial waste from the source. Strengthen the comprehensive management of VOCs and comprehensively control the unorganized emissions of VOCs. Promote the deep treatment of five types of wastewater (saline wastewater, acidic wastewater, high ammonia nitrogen, difficult to degrade, and heavy metals).	Relevant eligible enterprises	<i>Notice of the General Office of the Tianjin Municipal People's Government on Issuing the Implementation Plan for the High-Quality Development of the Petrochemical and Chemical Industry in Tianjin</i> (JZBF [2023] No. 3)

Support Type	No.	Key Policy Points	Applicable Subject	Basis
Green and low-carbon development	9	Support the green transformation of enterprises. Promote the implementation of energy conservation, carbon reduction, and green transformation in the petrochemical and chemical industry, resolutely curb the blind development of high energy consumption, high emissions, and low-level projects, and elevate the level of industrial development. Develop an implementation plan for energy conservation and carbon reduction in the petrochemical and chemical industry, conduct investigations on the energy efficiency level of enterprises, classify and develop the advanced and backward energy efficiency list, publicly release it to society and accept supervision. Expand the application proportion of seawater desalination water, scientifically determine the discharge method and destination of seawater desalination concentrated brine in accordance with the law, and promote the resource utilization of concentrated seawater.	Relevant qualified enterprises	<p style="text-align: center;"><i>Notice of the Municipal Development and Reform Commission on Issuing Several Policy Measures for Supporting the High-Quality Development of the Green Petrochemical Industry Chain (JFGGYG [2023] No. 2)</i></p>
	10	Encourage enterprises to increase the use proportion of green energy. Support enterprises to build photovoltaic, wind power and other green power projects, implement green energy substitution projects, and increase the use proportion of renewable resource and clean energy. Support enterprises to use waste heat and pressure to generate electricity and connect to the grid. Support enterprises to use cooperative construction green energy projects, market-oriented transactions, and other methods to increase the usage proportion of green electricity, and explore the construction of an integrated experimental zone for power supply, power grid, load and energy storage.		
	11	Support enterprises to apply for green unit demonstration. For enterprises selected for demonstration titles such as national and municipal green manufacturing units, energy efficiency stars, “leaders” in energy efficiency (water efficiency), and green manufacturing system solution suppliers, as well as those listed on the list of strategic emerging industry enterprises in Tianjin, those that meet the <i>Technical Guidelines for Developing Emergency Emission Reduction Measures for Key Industries in Heavily Polluted Weather (Revised in 2020)</i> and related requirements will be prioritized for inclusion in the list of heavily polluted weather guarantee enterprises. Encourage financial institutions to increase their investment in green credit for projects such as energy efficiency (water efficiency) improvement, comprehensive resource utilization, and green and low-carbon transformation.
